GENERAL SUMMARY —A few scattered showers fell in the 24 Parganas, Nadia, Jessore, Khulna and the Sonthal Parganas There was no rain elsewhere Sowings of *rabi* crops are still in progress on low lands and in tracts where irrigation is possible Harvesting of early paddy and of sugarcane is going on Sowings of poppy have commenced in Patna and Saran Rain is urgently required for standing *rabi* crops and for further *rabi* sowings in many districts *Aman* paddy has suffered badly from drought on high lands in several districts in Lower Bengal and Bihar In North Bihar the paddy crop has suffered most, and the Darbhanga crop is so bad that in many parts it is being utilised for fodder Prospects are good in Orissa and Chota Nagpur Insect pests are doing damage to *rabi* crops in Patna and Shahabad The price of common rice has risen in Bankura, Jessore, Darjeeling and Manbhum and has fallen in Hooghly, Patna, Gaya, Champaran, Monghyr, Bhagalpur, Balasore, Hazaribagh, Ranchi and Palamau Stocks of food-grains are insufficient in Balasore and in parts of Murshidabad On account of the failure of the paddy crop there is little demand for labour in North Bihar, and the high prices are seriously affecting the labouring classes Cattle are in fairly good condition, but cases of cattle disease are reported from Monghyr and from the Chota Nagpur Division (Singhbhum excepted) The supply of fodder and water is for the present adequate for the Province as a whole The test works in Nadia and Darbhanga were attended by 2,438 persons Gratuitous relief was given to 2,195 persons in Orissa and 350 persons in Darbhanga

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF AUGUST 1908

GENERALLY speaking the Bay current was less active than that from the Arabian sea during the month under report, and the month's rainfall was in defect over the region dominated by it The distribution was also somewhat unfavourable, particularly in relation to Eastern Bengal and Assam, owing to the concentration of rainfall along the tracks of a series of small depressions, which formed near the head of the Bay

Three depressions passed into Northern India from the Bay during the first half of August and two in the second half On the 31st July 1908 a depression formed at the head of the Bay which developed on the 1st August and passed inland on the 2nd It gave moderate to heavy rain in Orissa and Bengal A second depression formed to the south of the Sandheads on the 6th It passed inland on the 8th It gave widespread rainfall in Behar Another depression formed in the Bay on the 10th and passed inland on the 15th A shallow depression again formed on the 19th, but did not affect the weather to any large extent A fifth depression formed in the north of the Bay on the 27th and crossed the coast between False Point and Puri on the morning of the 29th None of the depressions developed into a serious storm The last depression gave moderate rain to Bihar and Orissa

Summary of temperature—Mean temperature was in slight defect in Orissa In Bihar it was about 2° and in North Bengal about 1° in excess, in the rest of the reporting area it was about normal The highest temperature recorded was 98 4° at Gaya and the lowest 71 4° at Ranchi

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of August 1908 —

Summary of rainfall—The rainfall work of the province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer. A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province

Rainfall was very irregularly distributed There was an excess of 64 per cent in Orissa and 15 per cent in Chota Nagpur, while it was 59 per cent in defect in Bihar and 18 per cent in Bengal

The mean pressure, temperature, etc, are deduced from the traces of the Kundsen's Barograph, and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

The 30th November 1908

No 144 Marine —In exercise of the powers conferred upon him by section 6, sub-section (*1*) of the Indian Ports Act, 1889 (X of 1889), the Lieutenant-Governor is pleased to make the following amendments in the rules for the Port of Calcutta which were made under that section, and were issued under the notification of this Government No 96 Marine, dated the 5th October 1894 —

Amendments

For rules 57, 60, 62, 68, 73, 81, 82, 84, 88 to 95 and 99 substitute the following —

57 No cargo boat or flat of any description shall ply, whether regularly or only occasionally in, or partly within and partly without, the limits of the Port unless licensed and registered by the Commissioners No licensed and registered cargo boat or flat shall be allowed to ply except under the direction of a manjee, serang or other officer licensed and registered by the Commissioners

60 No license shall be granted to any cargo boat or flat until such boat or flat has been surveyed by the Boat Surveyor of the Commissioners and he has granted a certificate stating—

(*a*) that the boat or flat is in good order and suited for the conveyance of cargo within the Port,
(*b*) the tonnage of such boat or flat, as ascertained by the following rules,
(*c*) the free board of the boat or flat when fully loaded,
(*d*) the number of crew required for the safe navigation of such boat or flat, according to the annexed scale, and
(*e*) the lights to be exhibited between dark and daybreak

Rules for ascertaining tonnage of boats and flats

Length —Measure the length from the inside stem to inside stern post

Breadth —Measure the breadth from side to side inside ceiling plank, under the deck beams amidships

Depth —Measure the depth from underside of deck beam amidships to upperside or floor ceiling plank

Then multiply the length, breadth and depth together, and the product—

in the case of boats and flats of class I—

by 009 for flush decked, square-built and open cargo boats and flats,
by 008 for bazar boats when the brake forward and aft does not exceed 9 inches,
by 007 for bazar boats when the brake forward and aft exceeds 9 inches,

and in the case of boats and flats of class II—

by 009 for open country boats known as jolly boats and powooes,
by 0064 for open country boats, such as pansways, bhurs, dinghees, and bhowleahs,
by 0083 for open country boats known as hollahs,
by 008 for bhurs whose length does not exceed three times the breadth,
by 0063 for open country boats known as chotes.

The result will be the tonnage of the boat or flat

The foregoing formula shall be used in measuring boats and flats of class I, up to a burden of 50 tons, but the measurement of boats or flats of that class exceeding 50 tons shall be made under the Merchant Shipping Act, provided that the Boat Surveyor of the Commissioners may measure boats or flats of class I of any size under the Merchant Shipping Act, when the owners show that the measurements made according to the above formula are inaccurate or oppressive

Having ascertained the tonnage of a boat or flat by the foregoing formula, the Boat Surveyor of the Commissioners shall, by a conspicuous mark on the side of the boat or flat, indicate for every boat or flat exceeding 10 tons the freeboard or greatest depth to which she may be immersed when loaded

62 The owner or his agent, or the manjhee, serang or officer in charge, of any licensed boat or flat shall not permit such boat or flat to be loaded so as to submerge the mark indicating the load water line, and shall not permit such boat or flat to ply unless provided with the number of crew stated in the license The boat or flat must be kept thoroughly clean, and shall always bear the numbers branded and painted on it under the provisions of the previous rule and be provided with a pump, lights, ground tackle, and fittings in working order as specified in the license

68 Any vessel which has made fast to a mooring buoy shall cast off when required by an officer duly authorized by the Commissioners

73 Every licensed cargo boat or flat, when plying, shall have its license on board, and it shall be produced when required, and shall be delivered up on the expiration or other determination of the license.

81 No passenger boat or flat shall ply, whether regularly or only occasionally in, or partly within and partly without, the limits of the Port, unless licensed and registered by the Commissioners No such vessel shall be allowed to ply as aforesaid except under the direction of a person licensed by the Commissioners

82 Every application for the licensing and the registration of a passenger boat or flat shall be made in writing to the Commissioners, and shall contain particulars of the owner's name and residence, or, in the event of the owner not residing in Calcutta, the name and residence of the agent duly authorised to act for him, a description of the vessel, and the number of passengers which it is intended to carry

84 No license shall be granted to any passenger boat or flat until such vessel has been surveyed by the Boat Surveyor of the Commissioners and he has granted a certificate stating the following particulars —

(a) that such vessel is in good order and suited for the accommodation of passengers,
(b) the number of passengers which may be carried,
(c) the number of crew required for the navigation of such vessel, and the number of such crew who should be required to remain on board at night or when the vessel is lying at anchor at other times, according to the following scales, and

Rules for ascertaining the number of passengers that passenger boats and flats are to carry

Divide the superficial area in square feet of the floor space available for the accommodation of passengers by 6, and the result will be the number of passengers the vessels may be licensed to carry

In the case of bhowleahs and other vessels belonging to private firms or companies and used exclusively for the conveyance of their own employés to and from their works, the divisor shall be 4 instead of 6

A passenger license entitles a vessel to carry cargo without a cargo license having been taken out

88 The license granted for any passenger boat or flat may be revoked by the Commissioners whenever such vessel is, in the opinion of the Commissioners, unfitted for the conveyance of passengers, or when any breach of the conditions of the license or the Port Rules has been committed by the owner or his agent, or the person in charge

89 No passenger boat or flat shall obstruct the free navigation of the Port or the approaches to wharves, jetties or landing stages, or shall occupy the portions of the bank set aside for bathing ghats

90 The Commissioners may, if they think fit, at any time order any passenger boat or flat to be re-surveyed without any charge to the owners, and they may also revoke at any time any license granted for any such vessel, or to the person in charge thereof, and it shall be competent to the Commissioners to refuse any application for the issue of a license

91 Whenever any accident occurs to a registered passenger boat or flat, the person in charge or the owner shall at once proceed to the nearest Port police-station and report the circumstances connected with the accident to the officer in charge

92 When any property belonging to passengers or others is left in a passenger boat or flat unclaimed, the property so left shall be at once sent by the person in charge to the Deputy Commissioner, Port Police, and a report of the circumstances connected with the property shall be entered in a book kept for that purpose by the Police

93 No person in charge of a licensed passenger boat or flat plying for hire for passengers in the Port shall, without good reason, refuse to carry a passenger in such vessel

94 Every licensed passenger boat or flat when plying shall have its license on board, which shall be produced when required by any passenger, the Port Police, or any Officer of the Commissioners

95 Every person licensed under Rule 81 shall be provided with a metal license ticket, upon which shall be legibly painted the number of his license, and every such person when in charge of a licensed vessel shall wear his ticket exposed to view No person without such ticket shall be in charge of any passenger boat or flat

96 No person in charge of any registered passenger boat or flat plying for hire for passenger traffic within the limits of the Port shall use, wear or have any ticket resembling the metal ticket granted under the authority of these rules

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest
On bids of Rs. 1,200 and upwards but less than Rs. 1,600 per chest, Rs. 300 per chest
On bids of Rs 1,600 and upwards, but less than Rs 2,000 per chest, Rs 400 per chest
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs 400

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M, in the after-noon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3 30 P M of the fifth day following the day of sale, or 1-30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P M, and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorised agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue —

No 1, Certificate of the opium advertised for sale,

No 2, Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1907-08, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment

By order of the Board of Revenue, L P,

S G. BHATTACHARJEE,

Secretary

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Hooghly, subdivision Howrah, will be put up to resale at the Howrah Collectorate on the 5th January 1909 corresponding with 21st Pous 1315 B S

The purchasers will be subject to the following conditions of sale —

Conditions of Sale

1st —The estate to be sold to the highest bidder above the upset price, which will be fixed by the Covenanted Deputy Collector at the time of sale The purchaser of this estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

N B —The conditions regarding the payment of a land revenue fixed in perpetuity are not applicable to estates in temporarily settled districts in which the land revenue should be fixed for the term of the current settlement and be subject to periodical revisions on expiry of each settlement In the case of an estate situated in permanently settled area and yielding an annual rental of less than Re 1, there should be no condition regarding payment of land revenue

2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities

3rd —If the amount of purchase money do not exceed Rs 100, the whole amount to be paid down at once

4th —If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the 15th day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale

5th —The resale is to be on account and at the risk of the first purchaser who has failed to fulfil his bid

Bills of the Bengal Council.

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

The following Bill was introduced in the Council of the Lieutenant Governor of Bengal on the 28th November, 1908, and is hereby published for information, together with the Statement of Objects and Reasons —

CALCUTTA, *The 1st December 1908*	F G WIGLEY, *Secretary to the Bengal Council*

THE INDIAN LUNATIC ASYLUMS (AMENDMENT) BILL, 1908

A

BILL

to amend the Indian Lunatic Asylums Act, 1858 — XXXVI of 1858

WHEREAS it is expedient to amend the Indian Lunatic Asylums Act, 1858,

And whereas the previous sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act, — 55 & 56 Vict. c. 14

It is hereby enacted as follows —

Short title — 1 This Act may be called the Indian Lunatic Asylums (Amendment) Act, 1908

Amendment of Act XXXVI of 1858, section 17B — 2 Section 17B of the Indian Lunatic Asylums Act, 1858, shall, so far as the Province of Bengal is concerned, be read as if it referred to parts of Bengal situated anywhere outside Calcutta — XXXVI of 1858

STATEMENT OF OBJECTS AND REASONS

Section 7 of the Indian Lunatic Asylums Act, 1858 (XXXVI of 1858), declares that a lunatic may be sent to an asylum in a Presidency town under the simple procedure of an order signed by some person connected with the lunatic and supported by a certificate signed by two medical officers, and, when a lunatic is sent to an asylum under this section, the Visitors or the Superintendent of the asylum may require his friends to engage to pay his expenses in the asylum, unless it appears that they are wanting in means When it is desired to send a lunatic to an asylum situated outside a Presidency-town, that can only be done (in cases where the Magistracy or the Police do not find it necessary to take action) under the order of a Civil Court, the obtaining of which is apt to cause much delay and expense to the parties

2 The transfer of the Lunatic Asylum from Dullunda (in Calcutta) to Berhampore has resulted in the loss of the inexpensive procedure provided by section 7 of the Act for the sending of lunatics as paying patients to an asylum situated in a Presidency-town It has been found, in consequence, that lunatics in Calcutta who might have been sent to an asylum as paying patients, had the asylum at Dullunda not been abolished, either are not sent to an asylum at all, or are sent to the asylum at Berhampore as pauper lunatics under the order of a Magistrate or of the Commissioner of Police

3 By section 17B of the Indian Lunatic Asylums Act, 1858 (which was inserted by Act XVIII of 1886), the Governor General in Council is empowered to direct that any Lunatic Asylum in Bengal which is situated at a greater distance than three hundred miles from Calcutta shall be deemed, for the purposes of the Act, to be situated in the Presidency town, and it is proposed by the present Bill to amend that section by getting rid of this limitation as to distance The result will be to admit of a direction being given to the effect that the asylum at Berhampore and the projected asylums at Ranchi (when opened) shall be deemed to be "Lunatic Asylums at the Presidency," and the simple procedure of section 7 will then again become available for dealing with Calcutta lunatics

QUESTIONS AND ANSWERS

CONSUMPTION OF LIQUOR

The Hon'ble BABU GAJADHAR PRASAD asked —

Will the Government be pleased to state whether the consumption of liquor has recently been on the increase? If so, to what extent? In view of the fact that the prices of food grains are abnormally high and that the people are in distress, will it please the Government to state what measures the Government considers it necessary to adopt for the prevention of the increase of consumption?

The Hon'ble MR OLDHAM replied —

"The general answer to the Hon'ble Member's question whether the consumption of liquor has recently been on the increase must be in the affirmative

"In regard to the *extent* of the increase, it is to be remembered that only a little more than half of the area of the Province is under the contract or central distillery system It is only with regard to this area that precise figures of consumption of liquor are available With regard to the area under outstills, exact information as to the quantity of country spirit sold and consumed is not available

"The Provincial Excise Administration Report for 1907 08, to which the Hon'ble Member is referred, shows a considerable increase of consumption only in Calcutta, Burdwan and the Sonthal Parganas

"In Calcutta the increase was partly due to increase in population and increased wages, and partly to the larger supplies of liquor taken out by the vendors towards the end of last year in view of the increase in duty from April 1908

"In Burdwan the increase was mainly due to a larger influx of the labouring classes in the collieries and to better wages paid to them, but was also in part due to reduction of exorbitant prices which were formerly charged by vendors

"In the Sonthal Parganas it was mainly due to a very good lac business and to better wages earned by the labourers

"In the central distillery areas of the Patna Division, where the effect of high prices of food grains was more felt, the consumption of liquor decreased A statement is placed on the table showing the consumption of country liquor in the several districts under the contract or central distillery systems during the first seven months of 1907 08, and the corresponding period of the current year This statement shows a large decrease of consumption in Calcutta, the Patna Division and the Sonthal Parganas as compared with that of 1907-08

"With the object of checking consumption, the duty on country spirit was raised in ten districts in the year 1907 08 And since the beginning of the current year, the duty or cost price has been further raised in twelve districts (or parts of districts) License fees have also been generally raised, and maximum retail prices have also been raised in certain districts Reductions have been made in the number of liquor shops, and, on discussion of the subject at the recent Conference of Commissioners of Divisions, it was determined that the lists of licensed shops should be further scrutinised It is also intended to abolish the outstill system throughout the Bhagalpur Division with effect from next year Strength of liquor has been regulated in the contract and central distillery areas, and in Calcutta the maximum limit of strength has been reduced and further reduction is under consideration"

Statement showing the consumption of country spirit in the distillery and contract areas from April to October 1908 (seven months) as compared with the corresponding period of the previous year

DISTURBANCES IN THE CHAMPARAN DISTRICT

The Hon'ble BABU GAJADHAR PRASAD asked —

Has the attention of the Government been drawn to the representation of the raiyats of Champaran, which was published in the *Amrita Bazar Patrika* of the 17th November, 1908? Will the Government be pleased to state whether it has taken any step to make an independent inquiry into the alleged grievances? Will it please the Government to appoint a Commission, consisting of some high Government officers, some leading indigo planters, and some distinguished Indian gentlemen of the Tirhut Division, for the purposes of such inquiry?

The Hon'ble BABU KALI PADA GHOSH asked —

Has the attention of the Government been called to the articles which have appeared from time to time in the *Bengalee* and other newspapers regarding the state of things in the Bettiah sub division of the Champaran district?

Is it the case that a number of persons were arrested and confined in *hajat*, and that they had subsequently to be released, as their arrest and confinement were found to be illegal owing to the absence of the previous sanction of the Government which is necessary for a Magistrate to take cognizance of the offences with which they were charged?

Will the Government be pleased to inquire whether it is the case, as stated in one of the reports which appeared in the newspapers, that complaints made by the cultivators at the local thana against some indigo planters were refused by the Sub Inspector and the cultivators were referred to the Sadar?

Is it the case that the Divisional Commissioner held a conference with the indigo planters?

Was any such conference held with the cultivators or their representatives? If not, why not?

Will the Government be pleased, in view of the troubled state of things in the Bettiah sub division, to direct an independent inquiry into the situation by an officer unconnected with the locality?

The Hon'ble BABU RADHA CHARAN PAL asked —

(*a*) Has the attention of the Government been drawn to the report published in the *Bengalee* newspaper of the 30th October last, under the heading—"An apprehended Indigo Disturbance in Champaran," in which it is alleged that attempts are being made to compel the raiyats at Champaran to grow indigo and sugarcane on their lands on terms offered by the factories, and that people are intimidated and that a woman has been beaten to death?

(*b*) Is it a fact that a petition has been submitted by the raiyats to His Honour the Lieutenant Governor on the subject? Has any reply been given to it?

(*c*) Is it true that one of the signatories to the petition, named Sital Roy, was arrested, handcuffed and sent to prison without being informed of the charge on which he was arrested?

(*d*) Is it a fact, as reported in the *Bengalee* of 3rd November, 1908, that 200 warrants have been issued for the arrest of the leading raiyats, who have refused to sow indigo in their lands?

(*e*) Has the Government made inquiries into the matter? If the allegations are true, what orders have the Government been pleased to pass for the protection of the raiyats?

The Hon'ble MR. DUKE replied —

"The attention of Government has been directed to the disturbances in Champaran ever since they commenced. Its attention was first attracted by the actual occurrence of breaches of the peace, for no representation had been addressed to it or any of its officers on behalf of the persons who

created the disturbance until breaches of the peace had taken place and the law had been put in motion to repress them

"Government is not aware that any persons had to be released in consequence of the absence of its sanction to prosecute them, as sanction was granted in the cases in which it was asked for

"It is not possible to answer in further detail at present, but Government has set itself to restore order and repress crime The neighbourhood is now generally quiet, and, as soon as it is reasonably certain that there will be no further resort to violence, a full inquiry will be made into the causes of the outbreak An experienced officer has been selected and furnished with full instructions as to the subjects to be examined, but no such inquiry could be undertaken without greater danger to the public peace or usefully conducted so long as the peace of the district continues to be disturbed"

MINISTERIAL OFFICERS SALARIES COMMITTEE

The Hon'ble BABU KALI PADA GHOSH asked —

At the meeting of the Council held on the 4th April last, the Hon'ble the Financial Secretary was pleased to observe that the Government considered it a matter of regret that final orders had not been issued until then on the recommendations made by the Ministerial Officers' Salaries Committee, and that certain further information had been called for by the Supreme Government and endeavour was being made to supply this as early as possible

Will the Government be pleased to state if final orders on this matter have been received by this time, and, if not, when the Government expects to receive the same?

The Hon'ble MR OLDHAM replied —

"Final orders have not yet been received on the recommendations of the Committee As the recommendations involve reference to the Secretary of State, this Government cannot say when orders will be received"

CASE OF PRISONER DURGA CHARAN SANYAL

The Hon'ble BABU KALI PADA GHOSH said —

I have the honour to call attention to the case of Durga Charan Sanyal of the Darjeeling Mail assault case, and to inquire if this Government has consulted the Government of Eastern Bengal and Assam If so, will the Government be pleased to announce its decision with regard to the release of the prisoner?

The Hon'ble MR DUKE replied —

"The Lieutenant-Governor has carefully considered the case of Durga Charan Sanyal and has also consulted the Government of Eastern Bengal and Assam on the subject It has been decided that the prisoner should be kept under medical observation in jail for a period of six months After the expiry of that period it is hoped that the Government will be in a position to pass final orders in the case Meanwhile, it is proposed, in view of the doubts which exist as to the prisoner's sanity, that his treatment in jail should be as lenient as is compatible with proper discipline"

PUBLICATION OF AN INCRIMINATING ARTICLE ON THE TILAK CASE

The Hon'ble BABU KALI PADA GHOSH asked —

Is it the case that a warning was administered by the Government to some Anglo-Bengalee papers for publishing an incriminating article on the Tilak case, which formed a part of the Judicial proceedings in that case? If so, was any such warning administered to Anglo Indian papers which published the self-same article? If not, will the Government be pleased to state the reason for this difference of treatment?

The Hon'ble MR DUKE replied —

"The warnings given were in every case confidential They were addressed to all newspapers in Bengal which, to the knowledge of the Government, had republished the incriminating articles They pointed out the impropriety and possible consequences of this conduct"

VISIT OF CERTAIN STUDENTS TO CHAIBASSA

The Hon'ble BABU RADHA CHARAN PAL asked —

(a) Has the attention of the Government been drawn to the report published in the *Bengalee* newspaper of the 9th October last, in which it is stated that forty Science students of the Calcutta Presidency College went with their Professor to study Geology at Chaibassa on the 29th September, 1908, but that Mr Carey, the District Officer, treated them with indignity and turned them away?

(b) Did Mr Carey, before taking such an extreme step, communicate with the Principal of the Presidency College or the Government in order to ascertain the *bona fides* of the students and their Professor?

(c) If the facts stated in the newspaper be true, what notice has the Government been pleased to take of the conduct of Mr Carey?

The Hon'ble MR DUKE replied —

"The matter referred to in the report published in the *Bengalee* has been and still is, under the consideration of the Government"

THE CHOTA NAGPUR ENCUMBERED ESTATES (AMENDMENT) BILL, 1908

The Hon'ble Mr Duke moved that the Hon'ble Mr Slacke be added to the Select Committee on the Bill further to amend the Chota Nagpur Encumbered Estates Act, 1876

The motion was put and agreed to

THE BENGAL COURT OF WARDS (AMENDMENT) BILL, 1908

The Hon'ble Mr Duke presented the Report of the Select Committee on the Bill further to amend the Court of Wards Act, 1879

THE INDIAN LUNATIC ASYLUMS (AMENDMENT) BILL, 1908

The Hon'ble Mr Oldham moved for leave to introduce a Bill to amend the Indian Lunatic Asylums Act, 1858

He said —"Section 7 of the Indian Lunatic Asylums Act, 1858 (XXXVI of 1858), declares that a lunatic may be sent to an asylum in a Presidency-town under the simple procedure of an order signed by some person connected with the lunatic and supported by a certificate signed by two medical officers, and, when a lunatic is sent to an asylum under this section, the Visitors or the Superintendent of the asylum may require his friends to engage to pay his expenses in the asylum, unless it appears that they are wanting in means When it is desired to send a lunatic to an asylum situated outside a Presidency-town, that can only be done (in cases where the Magistracy or the Police do not find it necessary to take action) under the order of the Civil Court, the obtaining of which is apt to cause much delay and expense to the parties

"By section 17B of the Indian Lunatic Asylums Act, 1858, the Governor General in Council is empowered to direct that any Lunatic Asylum in Bengal which is situated at a greater distance than three hundred miles from Calcutta shall be deemed, for the purposes of the Act, to be situated in the Presidency-town, it is proposed by the present Bill to amend that section by getting rid of

this limitation as to distance The result will be to admit of a direction being given to the effect that the asylum at Berhampore and the projected asylums at Ranchi (when opened) shall be deemed to be 'Lunatic Asylums at the Presidency,' and the simple procedure of section 7 will again become available for dealing with Calcutta lunatics "

The motion was put and agreed to

The Hon'ble Mr Oldham introduced the Bill and moved that it be read in Council

The motion was put and agreed to, and the Secretary accordingly read the title of the Bill

The Hon'ble Mr Oldham also moved that the Bill be taken into consideration at the next meeting of the Council

The motion was put and agreed to

FAREWELL SPEECHES

The Hon'ble the Nawab Bahadur of Murshidabad Amir ul Omrah said —

"Your Honour, with your permission I should like to address a few words regarding the abominable incident which took place nearly three weeks ago, which has so much convulsed society and thrown such a thick veil of shame over the country—I mean the dastardly attempt which was made on Your Honour's life at the Overtoun Hall in College Street, an event to which I cannot refer without the greatest regret The gravity of the crime is only surpassed by the great indignation it has roused and the keen sympathy with Your Honour which it has evoked The enthusiastic ovation that greeted you unmistakably showed with what abhorrence those present there looked upon the acts of the would be assassin and with what thankful delight they cheered your most miraculous escape It was the hand of Providence that saved your life The exceptional courage and coolness which Your Honour displayed have won universal admiration We were settling down to think that we had heard of or seen the last of such misdeeds, but the latest and most audacious development has undeceived us, and it seems as if all the assurances of loyalty and manifestations of devotion, the expressions of sympathy and promises of co-operation, the eloquence of speakers and the earnestness of writers, on the side of peace and order, have had but little effect in eradicating the evil which has now assumed such horrid proportions Whatever may be the immediate object of these repeated villainous acts, there can be no doubt they have to a great extent tended to confirm the apprehension that this spirit of anarchism, confined though it be to a very small section of the community, has taken deeper root than many were aware of or cared to believe And what is more deplorable, such misconduct cannot but bring misery upon the innocent for the misdeeds of the guilty

"That such disgraceful incidents should conduce to leave a stain, a very black stain, on the traditional and proverbial loyalty of Bengal, is a matter much to be regretted The tide of misfortune which is carrying the time-honoured reputation of the country for loyalty towards the abyss of destruction should no longer be allowed to pursue the ruinous course it has so unhappily taken I speak with all the emphasis I can command, and assure you, if any assurances were required, that crimes and criminal inclinations such as these have nothing but our utter abhorrence and detestation As I said not long ago, to the hopes and aspirations of the millions of India he commits untold mischief who by such nefarious deeds attempts to retard the progress which India under British Rule is steadily making in the path of advancement Let every man, who has any sense of honour, any respect for the good name of his country and community, and any regard for his religion, help to the best of his ability in unravelling the mystery that shrouds these crimes and in eradicating the evil that is eating into the vitals of India.

"I offer Your Honour our sincerest congratulations on your narrow escape, and hope that the same protection may always be vouchsafed to you as spared your valuable life on the memorable evening of November 7th

"In your immediate presence this is the last opportunity we have of expressing our appreciation of your work not only within the walls of this Chamber but also outside it The several reforms and measures you have during your term of office inaugurated for promoting the welfare of the people entrusted to your charge have evoked, as they were bound to evoke, a deep sense of gratitude, and there can be little doubt that these will be living monuments of your thought, action and good work in the country which will, in but two days' time, with the greatest sorrow and reluctance bid farewell to you, but which will yet hope to profit by your help and sympathy, though you will be far away from it"

The Hon'ble MAHARAJADHIRAJA BIJAY CHAND MAHTAB BAHADUR of Burdwan said —"Your Honour this is the last occasion on which you will preside over this Council We, the non-official members of this Council, beg to offer to Your Honour our sincerest thanks for the very kind consideration that you have always shown to us in Council and out of Council We, the members of the Hindu community, very deeply feel that, during the last days of Your Honour's *regime* in Bengal, we have given you trouble and anxiety through the misdeeds of a few misguided youths, encouraged by wicked lunatics behind Sir, I may assure you, on behalf of myself and my Hindu colleagues in Council that the majority of us, a vast majority, I may say, very much deprecate the present state of affairs, and are quite willing to co-operate with Government in the restoration of peace and unity The only thing we ask from Government is, that while it should take strong measures it should show a sympathetic attitude towards those who are truly loyal Sir, it is with great reluctance that we bid you good-bye in Council We sincerely hope and pray to God that you will have a safe and pleasant voyage to your home, and that from there you will be spared by God to take an interest in the province over which you have ruled for five years"

The Hon'ble BABU GAJADHAR PRASAD said —"May it please Your Honour, as this is the last meeting of the Council over which Your Honour presides, I think it is my duty to express, on behalf of the people of Bihar, the deep debt of gratitude which they owe Your Honour and express the deep regret which they feel at Your Honour's retirement

"I am glad to say that Your Honour treated the people under your charge just as *Ma Baps* treat their children, and it was in accordance with that mode of treatment that you took special care for the Biharis and other backward people.

"It may be that you might have made some mistakes during your administration, but I think there can be no doubt that you had always the good of the people at heart

"Your Honour gave us a Training College for female teachers, and thereby advanced the cause of female education, and, in this connection, I cannot help thanking Mr Earle, our popular Commissioner, for the deep interest which he is taking in the institution

"You gave us a Training College for teachers and thereby gave greater facilities to our young men to qualify themselves for teacherships.

"You improved the Patna College, the Medical School and the Bihar School of Engineering to a great extent The Biharis are much indebted to Your Honour for the establishment of a Hindi Chair in the Presidency College and in the Patna College, and I hope your absence from India will not affect the stability of these institutions I don't exaggerate when I say that your name has been a household word in Bihar, and the people of the province have rightly resolved to have a separate memorial to keep your *regime* fresh in the minds of the people

"We always took you to be a virtuous ruler. God protects the virtuous, and it is the protecting hand of Providence that has preserved Your Honour on successive occasions terminating in the event at the Overtoun Hall. I

think that, except the anarchists, there is no soul in Bihar, Bengal and Orissa who does not condemn the dastardly attempt on the life of such a noble ruler

"May Your Honour, Lady Fraser, and your children live in peace and prosperity is the prayer which Bihar puts up before the Almighty

"Bihar is proud of and grateful to His Highness the Maharajadhiraja Bahadur of Burdwan for the courage and manliness which he displayed in trying to save the life of such a virtuous ruler at the risk of his own life, and I congratulate His Highness upon these virtues

The Hon'ble MR M S DAS said —"Your Honour, I do not think that I should be doing my duty as representative of Orissa, neither do I think that I should be doing my duty to Your Honour if I do not, from my seat here, give expression to the feelings of gratitude which the people of Orissa have felt, and continue to feel, for the deep interest Your Honour has always taken in the affairs of Orissa Though I had not the pleasure of watching the proceedings or associating myself with the proceedings of this Council during Your Honour's presidency, I know how anxious Your Honour was to see that Orissa was represented in this Council, and though this may be the last meeting of this Council, the people of Orissa have the satisfaction of knowing that there is more than one member. From the feudatory chiefs to the poor raiyats in Orissa, all have felt the keen interest, the keen and kind interest Your Honour has always taken The law of landlord and tenant in Orissa has for some time been felt as being unsatisfactory, and the latest news we get is that Your Honour has deputed an officer, specially qualified for the purpose—Mr Maddox—to inquire into the law of Orissa I fully endorse the words in reference to the dastardly attempt on Your Honour's life—the words that fell from the Hon'ble Nawab Bahadur of Murshidabad and those of the Hon'ble Maharajadhiraja of Burdwan I come from a province where anarchists and anarchism are not known, and the indignation felt here is more than surpassed by the indignation of the people of Orissa And, certainly, we Indians have to congratulate ourselves that in this Council Room we have a nobleman, whose sense of duty to Your Honour, and whose loyalty to His Majesty, induced him to stand between the revolver and Your Honour's person Let me assure you, Your Honour, that though a few villainous fanatics (their number is only very small) may entertain a dangerous political creed, which will die with them, either on the gallows or will be washed away in tears of penitence in the dark cells of a prison, the world outside is thoroughly loyal, and will remember your rule in this province with feelings of gratitude, sincere gratitude. Let me on behalf of the people of Orissa wish Your Honour a safe journey home, and long life and prosperity in your country amongst those who are dear and near to you"

The Hon'ble MR LARMOUR said —"On behalf of the community I represent in this Council, I wish to express to Your Honour the feelings of indignation held by that community on the dastardly attempt made on Your Honour's life in the Overtoun Hall, and the relief felt by us all in the knowledge that the attempt of the would be assassin had failed That the Maharajadhiraja of Burdwan should have acted as he did by interposing his own person to receive the bullet intended for Your Honour is no surprise to us who have the privilege of his acquaintance He has evidenced the courage of his convictions, not by word only but by acts, and has always loyally given his support to the maintenance of law and order among his fellow countrymen My community, Sir, have always felt that in Your Honour as the Head of the Province we have had a just and upright Governor, who has looked with forbearance on our shortcomings and who has been a kind and sympathetic friend to all who have needed Your Honour's guidance and advice During a time of sickness, overwhelmed with official work and full of family cares, you have always found time, Sir, not only to receive our written representations, but to give a patient hearing to our representatives whenever there has been occasion for them to trouble Your Honour with interviews, and I wish to thank Your Honour for your unfailing courtesy and kindness towards us I do not think that I can add very much to what has already been said by the speakers who have

preceded me I have no doubt that those who follow me will be able to express to Your Honour better than I have done the very great pleasure that one and all of the non official members in Council have had in serving in the Council, with Your Honour as President I join with these members in wishing Your Honour Lady Fraser and your family a very pleasant voyage home We trust you will enjoy long rest and happiness in that small land we all call "Home" and to which every Englishman in this country looks forward to return"

The Hon'ble MR BROWN said —"Your Honour—With your permission I desire to add a word of very sincere regret that this is the last occasion on which you will preside at this Council I wish also to acknowledge, as representing the mercantile community of Calcutta, the ever ready and sympathetic way in which you have invariably received any representations which they have put forward, as also the many opportunities you have given them of expressing their views on all matters affecting the welfare of the public I assure you, Sir, that they have a very thorough sense of the great and exceptional difficulties which have characterised the period during which you have been the Ruling Head of this Province, and they fully appreciate the large measure of success which has attended your administration During the last few months, in the very trying circumstances which have unfortunately existed, the strain which you have had to bear must have been very heavy, and the manner in which you have dealt with the position, and; in particular, your attitude in the face of grave personal danger, have elicited the admiration of all sections of the people I congratulate you, Sir, that in bringing your administration to a close you do so amidst universal expressions of appreciation and regard, and that you carry away with you to such a marked degree the respect and good will of the people of this country"

The Hon'ble the PRESIDENT replied —"Nawab Bahadur and Gentlemen, I thank you for the expression you have given to your feelings of loyalty, your execration of anarchy and crime, and your personal goodwill to me and mine I am sure that there is a strong feeling throughout the country that sedition and lawlessness must be put down with a strong hand, and that the loyal subjects of His Majesty must stand by the Government in this matter The vast majority of the people are loyal, and they will no longer (I believe) suffer the tyranny of a small but unscrupulous and noisy minority They will rally effectively for the support of order, and assist the Government effectively in the measures it takes to suppress crime

'Gentlemen, I have to take leave of you to day I have always recognised the members of my Council as my colleagues my relations with them have always been frank and friendly I part from them with great regret I wish the Council itself, and every member of it, all happiness and prosperity, and I can assure you that I shall always remember with pleasure our work together in this Council Chamber"

The Council was then adjourned to a date to be announced hereafter

Characteristics of Lights—Alterations in Definitions

No 473 (first publication) —The following particulars, etc, relative to the above, issued by the British Admiralty (No 1706 of 1908), are republished —

Subject —The large increase in late years in the variety of lights, exhibited by the different maritime nations, made possible by the more extensive use of lights which alter in colour, has necessitated alterations in the definitions of the characteristics of lights in the Admiralty publications, and also in their designation on the Admiralty charts, as undermentioned

These alterations will be embodied in the Admiralty Lists of Lights for 1909, but some time must necessarily elapse before all the charts can be amended

Alteration —In Admiralty List of Lights, parts I to VIII, Introductory Remarks, cancel paragraph commencing "Characteristics," and paragraph commencing "Explanation", also cancel note at foot of page, and substitute —

Characteristics —Lights may either show a continuous steady light, or be varied by the introduction of flashes, eclipses, &c They are divided generally into two classes, as shown below in parallel columns, viz —

(1) Lights whose colour does not alter throughout the entire system of changes,

(2) Lights which alter in colour,

both classes having the same characteristic phases

Lights whose Colour does not alter	Characteristic Phases	Lights which alter in Colour
F Fixed	A continuous steady light	Alt Alternating
* Fl Flashing	(*a*) Showing single flashes at regular intervals, the duration of light being always less than that of darkness (*b*) A steady light with, at regular intervals, sudden and total eclipses, the duration of light being always less than that of darkness	* Alt Fl Alternating flashing
* Gp Fl Group flashing	Showing groups of two or more flashes at regular intervals	* Alt Gp Fl Alternating group flashing
* Occ Occulting	A steady light with, at regular intervals, sudden and total eclipses, the duration of darkness being always equal to or less than that of light	* Alt Occ Alternating occulting
* Gp Occ Group occulting	A steady light with, at regular intervals, groups of two or more sudden eclipses	* Alt Gp Occ Alternating group occulting
F Fl Fixed and flashing	A fixed light varied, at regular intervals, by single flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Fl Alternating fixed and flashing
F Gp Fl Fixed and Group flashing	A fixed light, varied at regular intervals, by groups of two or more flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Gp Fl Alternating fixed and group flashing
*Rev Revolving	Light gradually increasing to full brilliancy, then decreasing to eclipse	* Alt Rev Alternating revolving

(U) after the name of a light indicates that it is unwatched

Explanation —Period is the interval between successive commencements of the same phase

In the case of lights which alter in colour, there are, strictly speaking, two periods, viz —one of phase, and one of alternation of colour That shown in the column headed "Period" is the first of these Details of the second are set forth in the column headed "Remarks"

The bearings are magnetic, &c, &c

* * * * * * * *

NOTE —For hydrographic purposes a light is classed as flashing or occulting solely according to the relative duration of light and darkness and without any reference to the apparatus employed At short distances and in clear weather flashing and revolving lights may show a faint continuous light.

Letter to the Government of India, No 2720, dated the 21st November 1906

Letter from the Government of India, Home Department, No 423, dated the 8th June 1907, and the reply thereto

Letter from the Government of India, Home Department, No 19?, dated the 20th February 1908

Letter from the Government of India, Home Department, No 430, dated the 22nd May 1908

Letter from A Earle, Esq, I C S, on special duty, No 12571, dated the 15th June 1908

THE question of the revision of the Code of Regulations for European schools was raised by the Government of India in 1903 in connection with the

general question of the improvement of European education At that time European education, except in Bombay, Madras and Burma, was regulated by the Bengal Code A Committee, representative of the various Provinces, was accordingly appointed by the Government of India to revise this Code with a view to the preparation of a uniform set of rules for the whole of India and Burma As a result of the deliberations of this Committee a draft Code was circulated in 1903 The question of the curriculum was referred back to Local Governments for consideration, and a Conference was held in 1906 in which the question was considered. This Conference recommended important alterations in the Code as drafted, necessitating reference to the Government of India, whose final assent to the proposals of this Government was received in February 1908 The Code has since been redrafted and is now published for general information

2 The Code, as now published, is based on the results of the careful deliberations of practical educationists, thoroughly conversant with the conditions of European education in Bengal, and there is every reason to hope that it will bring about a substantial improvement in the education of European children throughout the Province The Lieutenant Governor desires that it should be introduced as soon as possible, and accordingly directs that the high school and scholarship examination, the middle school and scholarship examination and the primary school examination for European schools should be held for the last time at the end of 1909 The first list of recognised secondary and elementary schools should be published at the beginning of 1910 As soon as possible after the issue of this Resolution, the authorities of every school should address the Inspector of European Schools stating the grade, elementary or secondary, to which they desire that the particular school in which they are interested should belong, and showing the curriculum which it is proposed to teach, and the arrangements which will be made for teaching it On receipt of the Inspector's report, the Director of Public Instruction will decide in which grade each school will be placed

3 His Honour desires to acknowledge the assistance rendered by the various officers of Government and private gentlemen who have been consulted in this matter, and especially the care and labour devoted to the perfecting of this Code by Mr Earle, late Director of Public Instruction and by Mr W W Hornell

ORDER —Ordered that the Resolution, with the new Code of Regulations for European Schools in Bengal (1908), be published in the *Calcutta Gazette*, that a copy be submitted to the Government of India for information, and that a copy be forwarded to the Director of Public Instruction, Bengal, for information and guidance

By order of the Lieutenant Governor of Bengal,

H C STREATFEILD,

Offg Secy to the Govt of Bengal

CODE OF REGULATIONS FOR EUROPEAN SCHOOLS, BENGAL, 1908

CHAPTER I

PRELIMINARY

Corresponding articles of the revised code 1905

1 A sum of money is annually granted by the Local Government for European education in Bengal The object of the grant is to aid local exertion in maintaining efficient schools for European children, and institutions for training teachers for such schools This grant is administered by the Education Department of the Local Government, hereinafter called the Department — 1

2 The term "European" in this code signifies any person of European descent, pure or mixed, who retains European habits and modes of life, but the Local Government shall in all cases of doubt decide the proper application of the term The term "scholar" signifies European scholar The term "Director" signifies the Director of Public Instruction, Bengal, and the term "Inspector" signifies the Inspector of European Schools, Bengal The Director may authorise any Inspectress of Schools to assist the Inspector in the work of supervision of European schools in which girls are taught In any such case, however, the Inspector will still remain the officer responsible to the Department in respect of such schools Subject to the limitation indicated, the term "Inspector" includes an "Inspectress of Schools" — 2

3 A list of recognised schools is kept by the Department Any school seeking recognition must satisfy the Department that it is actually wanted, that its financial stability is assured, that its managing body, when there it one, is properly constituted, that it teaches the proper subjects up to a proper standard, that due provision has been made for the instruction, health, recreation, and discipline of the pupils, that the teachers are suitable as regards character, number and qualifications, and that the fees to be paid will not involve such competition with any existing school as will be unfair and injurious to the interests of education. — 3

4 Only those schools which are recognised are eligible to send up pupils to the examinations referred to in Chapter IX, or to receive scholars who hold Government scholarships, or to share in any other benefits of this code — 4

5 Every school to which aid is given shall be under the management of a governing body, hereinafter called the managers, who shall be responsible for the maintenance and control of the school, and for the fulfilment of all the conditions upon which the grant is made The managers of a school must appoint a correspondent with the Department, who must in every case be approved by the Department In communicating with the Department, the correspondent should invariably address the Inspector — 5

6 Every school aided by Government in any form whatever under the provisions of this code shall be conducted in accordance with the following regulations — — 6

(a) It shall not be required, as a condition of any child being admitted into or continuing in the school as a day-scholar, that he shall attend or abstain from attending any Sunday school or any place or religious worship, or that he shall attend any religious observance or any instruction in religious subjects in the school or elsewhere, from which observance or instruction he may be withdrawn by his parent, or that he shall, if withdrawn by his parent, attend the school on any day exclusively set apart for religious observance by the religious body to which his parent belongs

Corresponding articles in the revised code 1905

(b) The time or times during which any religious observance is practised or instruction in religious subjects is given, at any meeting of the school, shall be either at the beginning or at the end or at the beginning and the end of such meeting, and shall be inserted in a time table to be kept permanently and conspicuously hung up in every school room and any day scholar may be withdrawn by his parent from such observance or instruction without forfeiting any of the other benefits of the school

(c) The school shall be open at all times and in all its departments to the Inspector, but it shall be no part of his duties to enquire into any instruction in religious subjects given at such school, or to examine any scholar therein in religious knowledge, or in any religious subject or book

7 — 7 No grant is made—

(a) on account of instruction in religious subjects,

(b) to any school which is not subject to the inspection of the Department,

(c) on account of non European scholars or of scholars under three years of age,

(d) to any school in which the number of non Europeans exceeds 15 per cent of the total number of scholars, or such smaller percentage as the Local Government may, by special order, prescribe for any particular school or place,

(d) to any school with an average daily attendance of less than 25 European scholars, except in places where there is only a small European population, or where in the opinion of the Department such a school is necessary,

(f) to any school or section of a school which the Department declares to be unnecessary, or unsuited to the requirements of the locality,

(g) to any school the income of which from all sources is sufficient, in the opinion of the Department, to maintain it in efficiency,

(h) to any school which is conducted for private profit, and

(i) to any school which is farmed out by the managers to a teacher or teachers

NOTE 1 —A school is farmed out to a teacher, if the fees are handed over to him to make what profit he can out of them This applies to boarding as well as to day schools

2 —To any school now receiving a grant under the code which would be debarred from such grant by the operation of clause (h) this clause shall not apply so long as the school remains in the possession of its present proprietors

8 — 8 When a school desires a grant-in aid, an application shall be made to the Department in the prescribed form (Appendix I), giving the following particulars —

(a) Grade of school (vide Chapter II)

(b) Names, salaries and qualifications of the teachers

(c) Number of scholars in each class

(d) Scale of fees, class by class

(e) Probable annual income from all sources, other than the grant

(f) Proposed annual expenditure

(g) Names of the managers and the correspondence.

9 — 9 Should the Inspector report favourably on the school after seeing it, the Department will inform the managers from what date the school will be regarded as coming under this code, and the amount of grant temporarily awarded If the application is rejected, the grounds of rejection shall be notified by the Department to the managers

10 — 10 The amount of the temporary grant referred to in the preceding article shall be the amount which, in the judgment of the Inspector after visiting the school, it would be likely to receive under the ordinary rules and

	Corresponding article of the revised code 1905
shall be paid monthly As soon as the permanent character of the school is established, it shall be made subject to the provisions of Chapter V	
11 The Inspector may visit an aided school at any time with or without notice Unaided schools which are recognised or desire recognition are subject to such inspection as may be necessary in order to satisfy the Department of the observance of the conditions stated in article 3	11
12 The interpretation of any article in this code shall rest with the Department.	12
13 The Local Government may cancel or modify any articles or appendices of this code, or may introduce new articles or appendices	14

CHAPTER II

GRADES OF SCHOOLS

14 All recognised schools shall be graded by the Department as elementary or secondary — 15

15 An elementary school is one which, in the opinion of the Department, is competent to teach the curriculum of studies prescribed for elementary schools in this code, or such modification of it as the Department may from time to time accept as sufficient for the purposes of an elementary education — 16

16 A secondary school is one which, in the opinion of the Department is competent to teach the curriculum prescribed for secondary schools in this code, or such modification of it as the Department may from time to time accept as sufficient for the purposes of a secondary education — 16

17. In grading a school, the Department will take into consideration— — 17

(*a*) the standard up to which there is a real, and likely to be a permanent, demand for instruction in the school, and

(*b*) the competence of the school staff to teach up to that standard, and its sufficiency for the number of classes in the school As a general rule, the staff will be regarded as insufficient, if any teacher is required to instruct more than 30 scholars, or more than two classes, at one and the same time

18. A complete elementary school shall contain an infant class and 6 other classes The classes shall be arranged as follow — — 18 & 19

(*a*)	The infant class	(approximate ages,	5 to 8	years)
(*b*)	Class I	(ditto	8 to 9	„)
(*c*)	„ II	(ditto	9 to 10	„)
(*d*)	„ III	(ditto	10 to 11	„)
(*e*)	„ IV	(ditto	11 to 12	„)
(*f*)	„ V	(ditto	12 to 13	„)
(*g*)	„ VI	(ditto	13 to 14	„)

19. To obtain recognition as an elementary school, it is not essential that provision should be made for all the classes named in article 18, though the classes of all recognised elementary schools must be arranged on these lines A school might, for example, decide not to admit scholars below the age of 8, in which case it would not require an infant class Similarly, one school might find it desirable to provide instruction for the four highest classes only, while another school might be called upon to provide for the infant class and the 3 — 18 & 19

Corresponding articles of the revised code, 1906

lowest classes. Either of these schools would be eligible for recognition as an elementary school, but a school which does not teach up to the end of the sixth class will be regarded as imparting a course of elementary instruction, admittedly incomplete, with a view to preparing its scholars for further instruction elsewhere No certificate of any kind will, however, be awarded to any scholar who has not gone through the whole of the prescribed curriculum, or such modification thereof as the Department may from time to time accept as sufficient for the purposes of an elementary education (articles 15, 24 and 25)

18 & 19

20. A complete secondary school shall consist of 3 sections and 10 classes in addition to the infant class The arrangement of the classes shall be as follows —

(1) The preparatory school (approximate ages, 5 to 12 years

(*a*) The infant class
(*b*) Class I
(*c*) „ II
(*d*) „ III.
(*e*) „ IV

(2) The general school (approximate ages, 12 to 16 years)

(*f*) Class V
(*g*) „ VI
(*h*) „ VII
(*i*) „ VIII

(3) The upper school (approximate ages, 16 to 18 years)

(*j*) Class IX
(*k*) „ X

18 & 19

21 To obtain recognition as a secondary school, it is not essential that a school should provide a preparatory section, nor, in the event of a preparatory section being provided, is it necessary that it should contain four classes and an infant class If a secondary school, for example, decides not to admit pupils before the age of eight, it will not require an infant class Similarly, if it restricts its admissions to pupils of or over ten years of age, it will probably not require more than two classes before the general school stage The essence of a secondary school is that it should provide a systematic and complete scheme of instruction definitely in advance of the elementary and suitable for children from about the age of 12 upwards Such a scheme cannot be considered as sufficient, unless it extends over a period of at least four years Consequently, no school can be recognised as secondary, unless it provides at least a complete general section, as fixed by the classification prescribed in article 20

20

22 If the circumstances of a school change, its grading may be altered by the Department.

CHAPTER III

Promotion of Scholars

21

23 Promotions from class to class and from one section of a school to another shall be left to the discretion of the teachers and managers, subject to the general control of the Inspector

COURSES OF STUDY

24 In order to be recognised as an elementary school a school must, subject to the provisions of articles 25 and 26, show to the satisfaction of the Department that it is capable of providing efficient instruction in the following subjects — 22 to 25

(1) Reading

(2) Writing

(3) Arithmetic

(4) English composition.

(5) English grammar

(6) English poetry and literature

(7) Nature observation work

(8) Geography

(9) History

(10) Drawing

(11) An Indian vernacular (article 26)

(12) Hand work

(13) Needlework (for girls only)

(14) Music

25 The instruction given in each of the subjects named above shall be on the lines laid down in Appendix II Subject to the proviso contained in article 26, the teaching of each of the subjects named in article 24 is not an indispensable condition of recognition, but a school, wishing either to omit from its curriculum one or more of the subjects prescribed, or to substitute for one or more of the subjects prescribed another subject or other subjects, must satisfy the Department that the omission or substitution proposed is either unavoidable or in accordance with the best interests of its pupils. 22 to 25

26 All recognised elementary schools are required to provide instruction in an Indian vernacular for all the boys in classes IV to VI (inclusive) Instruction in an Indian vernacular is not compulsory in the case of girls studying in elementary schools, but the provision of such instruction is to be regarded as desirable 22 to 25

27 In addition to the curriculum outlined in article 24 above, an elementary school may, if it wishes, provide instruction in one or more of the supplementary technical courses, which are given in Appendix III No recognised school will, however, be allowed to offer instruction in any of these courses, unless it can show to the satisfaction of the Department that there is a demand for this supplementary instruction, and that it can be carried on efficiently and without prejudice to the work of the institution as an elementary school No scholar who has not passed the elementary school final examination (articles 90 to 93) shall be admitted to any of these supplementary courses without the express permission of the Inspector 22 to 25

28 In order to be recognised as a secondary school, a school must, subject to the provisions of articles 29 to 31, satisfy the following conditions — 22 to 25

(a) In the event of there being a preparatory section, the school must show to the satisfaction of the Department that it is capable of providing for the scholars of this section efficient instruction in the following subjects —

(1) Arithmetic

(2) English

Corresponding articles of the revised code 1905

(3) History
(4) Elementary nature study, leading to geography
(5) Drawing.
(6) A modern European language or an Indian vernacular (article 31)
(7) Practical geometry

N B —The syllabus of studies above outlined does not take into account the infant class The curriculum of an infant class in a secondary school will be the same as that prescribed in the case of the similar class of an elementary school

(b the school must show to the satisfaction of the Department that it is capable of providing for the scholars of the general section efficient instruction in the following subjects —

(1) English
(2) Latin (optional for girls' schools)
(3) A modern European language or an Indian vernacular (article 31)
(4) Mathematics.
(5) History
(6) Geography
(7) Science—elementary botany, leading to elementary physics and chemistry, elementary physiology (including hygiene) Two branches to be regarded as compulsory
(8) Drawing
(9) Manual instruction
(10) Needlework (for girls only)

N B —Science teaching will not be considered efficient, unless every pupil receiving instruction in it is adequately provided with the means of doing practical work Similarly manual instruction will not be considered efficient unless a duly trained teacher and a properly equipped workshop are provided for such instruction

22 to 25 — 29 The lines on which instruction in these subjects shall proceed shall be left to the discretion of teachers and managers, subject to the general control of the Inspector The curriculum of the upper section of a secondary school will be left to the discretion of teachers and managers, subject to the general control of the Department On the completion of the general school curriculum, pupils may be allowed to specialise in commercial or technical subjects, but no scholar who has not completed the curriculum of the general school and obtained the Cambridge junior school certificate (article 95 *et seq*), or its equivalent, shall be allowed to receive such instruction without the express permission of the Inspector

22 to 25 — 30 The teaching of every subject mentioned in article 28(*b*), or in the case of a school with a preparatory department, of every subject mentioned in article 28(*a*) and (*b*), is not an indispensable condition of recognition, but a school, wishing either to omit from its curriculum one or more of the subjects prescribed, or to substitute for one or more of the subjects prescribed another subject or other subjects, must satisfy the Department that the omission or substitution proposed is either unavoidable or in accordance with the best interests of its pupils

22 to 25 — 31. All secondary schools for boys are required as a condition of recognition to provide efficient instruction in an Indian vernacular in all classes from class IV to class X (inclusive), but in the case of boys who are proceeding to England for further education, a modern European language may, with the permission of the Inspector, be substituted for an Indian vernacular in classes VII to X (inclusive) Instruction in an Indian vernacular is not compulsory in the case of girls studying in secondary schools, but the provision of such instruction is to be regarded as desirable

GRANTS IN AID

SECTION I.—GENERAL

32. Grants-in-aid are of the following kinds:—

(a) Ordinary grants, based on attendance.
(b) Supplementary grants, where ordinary grants are insufficient. — 26
(c) Fixed grants, to take the place of ordinary and supplementary grants.
(d) Boarding grants for orphans, the indigent, and for the poor in places where schools are not available.
(e) Cadet grants.
(f) Special grants.
(g) Grants to night schools.
(h) Building grants.

33. Special grants (Section VIII) and building grants (Section X) are payable at whatever time and in whatever manner may in each case be determined. Ordinary grants (Section III), boarding grants, etc. (Section VI), cadet grants (Section VII) and grants to night schools (Section IX) are annual grants for the year beginning on the 1st April and are payable to the school in one sum on or after the 1st April, unless otherwise ordered by the Department. A supplementary grant (Section IV) may, at the discretion of the Department, either take the form of an annual grant payable in one sum on or after the 1st April, or of a monthly grant payable at the close of each month. Fixed grants are specially provided for in article 45. — 27

34. Grants may be reduced or withheld for sufficient reason shown in the Inspector's report. A copy of the Inspector's report shall, in such cases, be communicated to the managers, who shall have an opportunity of making to the Department such representations as they may desire. — 28

35. If the amount payable under section III of this chapter exceeds the income of the school from all sources other than Government grants, it shall be reduced by the amount of that excess. — 29

NOTE.—In calculating the income of the school under this article boarding fees shall not be included.

SECTION II.—CONDITIONS OF AID

36. No grant will be given to any school that does not conform to the rules of this code. — 30

37. Grants are continued to such schools only as satisfy the following conditions:— — 31

(a) That the school is conducted in accordance with article 6 of this code.

(b) That the school premises are properly drained and healthy in other respects; that the buildings are well constructed and safe; that the rooms are properly lighted, ventilated, and (if need be) warmed, and that they are, as far as possible, well arranged for teaching; that in the case of boarding schools, proper arrangements are made for boarders; that the school is provided with all necessary offices, and that these and the premises generally are kept clean; that it contains sufficient accommodation for the scholars attending the school.

NOTE (1).—The Inspector may call upon the Civil Surgeon to furnish him with a report upon the sanitary arrangements of the school.

(2).—Rooms used for teaching purposes should provide 12 square feet per scholar where only one class is taught, and 16 square feet per scholar where more classes than one are taught in the same room; the calculation being made for each room on the average daily attendance of scholars taught in that room. The average daily attendance for any period is found by adding together the attendance of all scholars for that period, and dividing the sum by the number of full meetings within the same period, the quotient being the average daily attendance.

(3).—Not less than 50 square feet of floor space must be provided for each pupil in the dormitories. When a boarding school or dormitory is hereafter erected with the aid of a building grant, the minimum space provided for each boarder must be in accordance with the measurement stated in this article.

(c) That the school is properly equipped with furniture, books, maps, and other apparatus, including a complete set of class books for each teacher, supplied from school funds.

Corresponding articles of the revised code 1905

(d) That efficient provision is made for physical training, which shall, in boys' schools, fit pupils to join a cadet corps

(e) That the staff of teachers is sufficient and competent, and qualified under the rules

(f) That the studies are conducted in accordance with a time-table, of which a copy shall be submitted to the Department for approval as to the subjects of study and their arrangement Any important change in the time-table must be communicated to and approved by the Department

NOTE —The time table must show fully the work of the school, the times at which each subject is taught in the different standards and the distribution of work among the teachers A time table for each class must be hung up in the class room in a conspicuous place

(g) That scholars are satisfactorily taught in accordance with the provisions of Chapter IV

(h) That the organization and discipline of the school are approved by the Inspector

(i) That fees are levied from the scholars, except in the case of recognised orphanages and free schools

NOTE —Schools shall only be considered efficient when they satisfy the conditions laid down in article 37 (b), (c), (d) (e), (f) (g) and (h)

32 38 Should an aided school cease to be efficient the managers shall be warned of the fact, and the grounds on which it is considered to be inefficient fully stated A reasonable time, to be determined by the Department, shall then be allowed for improvement, after the lapse of which further Government aid will be withheld should the school be still inefficient

33 39 Every school receiving a grant shall comply with the following requirements -

(a) Any change in the constitution of the governing body, or any addition to or reduction in the school staff, shall be at once reported to the Department In the case of a change of correspondent, the out going correspondent must at once inform the Department of the name of his successor

(b) All returns called for by the Department shall be duly made

(c The admission, daily attendance, and withdrawal of the scholars shall be entered by, or under the supervision of, the principal teacher

(d) Accounts of income and expenditure shall be kept by the managers in a form prescribed by the Department, and shall be submitted to the Department annually The managers shall submit the accounts of the school to such conditions of audit as the Department shall from time to time impose

(e) The school shall be open to inspection throughout all its Departments, in order that the Inspector may satisfy himself that the conditions specified in article 37 are complied with

SECTION III —ORDINARY GRANTS

34 40 To be entitled to the full ordinary grants under this section, a school shall have held not less than 380 full school meetings during the school year, which shall be the calendar year If a school has held less than 380 full school meetings, a proportionate reduction shall be made in the grants, except in the case where a full year has not elapsed since the school was placed under the code

35 41 By a "full school meeting" is meant a period of two hours of continuous secular instruction In the infant class of a school, a period of one hour and a-half of secular instruction shall be considered as a full school meeting In no case may more than two school meetings be counted on the same day

36 42 By the term "ordinary attendance" in the following articles shall be understood "the average attendance at 50 of the best attended school meetings during the calendar year (January to December) last completed, unless the Department declares that it shall mean "the average daily" attendance during the school year"

NOTE —(1) Attendances may not be reckoned either for non Europeans, or for scholars under three years of age

(2) Scholars who are necessarily absent from a school meeting for attendance at any public examination at class firing or at battalion drill may be credited with attendances at such school meeting

Corresponding articles of the revised code 1906

43 The following are the scales for the calculation of ordinary grants — 37

A —For the ordinary grant to the infant class of elementary and secondary schools

	Rs
For each of the first ten scholars in ordinary attendance	20
Ditto second ditto ditto	15
Ditto remaining scholars in ordinary attendance	10

B —For the ordinary grant to classes I to IV (inclusive) of elementary and secondary schools

	Rs
For each of the first twenty scholars in ordinary attendance	25
Ditto second ditto ditto	20
Ditto remaining scholars in ordinary attendance	15

C —For the ordinary grant to classes V and VI of elementary schools

	Rs.
For each of the first twenty scholars in ordinary attendance	40
Ditto second ditto ditto	30
Ditto remaining scholars in ordinary attendance	20

D —For the ordinary grant to classes V and VI of secondary schools

	Rs
For each of the first twenty scholars in ordinary attendance	80
Ditto second ditto ditto	60
Ditto remaining scholars in ordinary attendance	40

E —For the ordinary grant to classes VII to X (inclusive) of secondary schools and on account of scholars studying recognised supplementary courses in elementary schools

	Rs
For each of the first five scholars in ordinary attendance	120
Ditto second ditto ditto	90
Ditto remaining scholars in ordinary attendance	60

To the amounts calculated upon these scales an addition of ten per cent is made

SECTION IV —SUPPLEMENTARY GRANTS

44 In addition to the grants mentioned above, supplementary grants may be made, on the recommendation of the Inspector, to any school for the efficient maintenance of which the ordinary grants are not sufficient In considering the assignment of supplementary grants, the Department shall have regard to the improvement of the quality and pay of the teaching staff, and it shall be a condition of such grants that they shall not be applied to the reduction of fees or of voluntary subscriptions 38

SECTION V —FIXED GRANTS.

45 Instead of the grants which may be payable under sections III and IV of this chapter, grants fixed in amount for a term of years may be given to schools under conditions which shall be determined by the Local Government 39

SECTION VI—(1) BOARDING GRANTS FOR ORPHANS AND DESTITUTE CHILDREN, AND (2) GRANTS TO CHILDREN OF THE POOR IN PLACES WHERE SCHOOLS ARE NOT AVAILABLE

46 A special grant of Rs 8 per mensem for each child in addition to ordinary grants of all descriptions is made in aid of boarding charges to orphanages and schools which, in the opinion of the Department, provide an education suitable for children of these classes The place of birth and residence shall not be taken into consideration in awarding such grants 40

47 The following conditions govern the bestowal of this grant in the case of orphans and destitute children — 41

(*a*) For every scholar on whose account a grant is claimed, a certificate must be obtained from the Magistrate of the district to which the child belongs certifying to its destitution These certificates must be filed in the school for reference

(*b*) No boy or girl over the age of 18 years shall be eligible

Corresponding articles of the revised code 1905

(c) No scholar reading in classes VII to X of a secondary school shall be eligible for this grant, unless in exceptional cases sanctioned by the Department

(d) Schools cannot claim this grant for military orphans for whom special military allowances are given (such children must, unless specially exempted, read in military asylums), or for children paid for from any other public or private funds

42 — 48 In the case of children of the poorer classes of Europeans in out of-the-way places where no suitable education is available, arrangements will be made by the Inspector for the education of such children at the nearest suitable school, the entire cost of such education or such part thereof as may be deemed necessary, and of conveyance to and from the school, being met by Government, provided that the necessity of this is certified by some responsible person to the satisfaction of the Department

SECTION VII —CADET GRANTS

43 — 49 A grant may be given at the rate of Rs 6 per annum for every cadet in the school who is certified by the Commanding Officer of the corps as efficient, and at the rate of Rs 8 per annum for every cadet similarly certified as extra-efficient

SECTION VIII —SPECIAL GRANTS

44 — 50 Special grants may also be made, on the recommendation of the Inspector —

(a) to schools in places where there is a small or poor European population,

(b) to schools newly established, or newly brought under this code,

(c) towards the purchase of school furniture and apparatus, books for school libraries, etc ,

(d) towards the purchase of appliances and materials for the teaching of manual instruction or handwork, drill and gymnastics, technical subjects, and such other special subjects as ma be from time to time approved by the Department,

(e) towards the cost of instruction in any of the subjects specified in (d), provided that additional expenditure is incurred on that account and that the ordinary grant is considered insufficient,

(f) for any other reason which the Department may consider sufficient

45 — 51. Every application for a special grant will be dealt with on its own merits, and according to the funds at the disposal of the Department, and shall be given subject to such conditions as the Department may impose

46 — 52 The managers must undertake to refund the amount of any grant made for furniture, apparatus or appliances, if the school ceases to exist within three years from the date of payment

SECTION IX —GRANTS TO NIGHT SCHOOLS.

47 — 53 Grants may be given to night schools for boys, provided that the scholars admitted to the school are certified by the managers to be engaged during the day in some occupation which prevents them from attending a school

48 — 54 The grants are given under the following conditions —

(a) By a "full school meeting" is meant a period of not less than one hour of secular instruction

(b) The number of full school meetings in the year must be not less than 80

(c) A night school may adopt any graduated course of studies suitable to its requirements, subject to the previous approval of the Inspector

49 — 55 Grants to night schools are calculated on the following scale —

Rupees 15 for each of the first twenty scholars in average attendance
,, 10 ditto remaining scholars ditto

SECTION X.—BUILDING GRANTS

Corresponding articles of the revised code, 1905

56. Grants may be given to managers of schools in aid— — 50

(a) of erecting or enlarging school buildings;

NOTE.—Expenditure on the purchase of buildings may be treated as expenditure on the erection of buildings.

(b) of executing extensive repairs;
(c) in special cases, of paying off debts incurred in erecting or enlarging school buildings; and
(d) of acquiring land for school purposes.

57. Except in the cases provided for in article 56 (c), no grant shall be given for a building regarding the erection or purchase of which the Department has not been consulted, or for which aid in full has not been promised previous to its erection, enlargement or purchase. — 51

58. The sum to be allotted annually for building grants to schools will be fixed provisionally for a term of years. The amount will be notified by the Local Government to the Department. It will not in ordinary circumstances be reduced, though it may be increased, for any year during that term. — 52

59. Every application for a grant must be submitted to the Department in the prescribed form (Appendix IV). It must be submitted not later than the 1st of August, if the grant is to be admissible for payment in whole or in part during the following financial year. Every application must contain a certificate from the managers that the funds at their disposal will, when added to the grant applied for, be sufficient to meet the full cost of the work. If the grant is sanctioned, the managers will be informed by the 1st of October of the amount of aid which they will receive. If not so sanctioned, the reasons shall be notified to the managers. — 53

60. When a grant is sanctioned, the managers shall be informed whether it will be payable in full from the allotment for the next year, or, if not, in what years and by what instalments. — 54

61. In the case of an application for a grant for repairs under article 56(b), the managers will be required to show that the necessity for such a grant has not arisen from the neglect of current repairs in previous years. — 55

62. In making an application for a building grant, the managers shall undertake to execute a trust deed in the standard form given in Appendix V, or in such other form as may be sanctioned by the Local Government. — 56

63. Grants under this section shall not ordinarily exceed one half of the total cost. In places where there is a small or poor European population, the maximum grant shall not exceed two-thirds of the total cost. — 57

64. Before a grant is sanctioned under this section, the Department must be satisfied— — 58

(a) that the European population of the locality is sufficiently large to render the existence of the school necessary, and to give a reasonable probability of its permanence;
(b) that the school is suited to the requirements of the locality;
(c) that the school is likely to be maintained in efficiency;
(d) that the school will be conducted in accordance with the rules and regulations of this code;
(e) that the site and plans are suited to the school, and that the title to the property is clear;
(f) that the plans, estimates and specifications have been approved by the Public Works Department.

65. The trust deed must provide for the legal ownership of the premises, for the proper maintenance of the building, and for the inspection and management of the school, and must declare the building or the land, on account of which a grant is made, to be held in trust for school purposes only. — 59

NOTE.—(1) The execution of trust deeds need only be insisted upon in the case of the erection or purchase of buildings or in other cases where the Department considers such a document necessary.

(2) This rule does not preclude the managers from using the building for other purposes when not required for the purposes of the school.

Corresponding articles of the revised code 1905

60 — 66 If any building, towards the erection, purchase or repair of which a grant has been made by Government, is subsequently diverted to other than educational purposes, Government shall have a prior lien upon the building for the recovery of the grant, and a provision to this effect shall be made in the trust deed

61 — 67 Advances may be made from time to time out of the sanctioned building grant on receipt of a report from the Public Works Department that the work is proceeding satisfactorily

62 — 68 The building grant is not paid in full until—

(a) a report has been received from the Public Works Department certifying that the building has been satisfactorily completed in accordance with the approved plans and specifications, and
(b) that the trust deed has been duly executed, registered and forwarded by the managers to the department for safe custody

CHAPTER VI

THE EMPLOYMENT OF TEACHERS

63 — 69 In aided schools every paid teacher should be engaged under written agreement with the governing body, terminable on either side with reasonable notice (one term's notice may be considered reasonable), and, while the agreement may provide that the power of suspending the teacher shall rest with the head master, the power of his dismissal should rest with the governing body A teacher who considers himself unjustly dismissed should be permitted to make a representation to the Director, and the governing body should in such a case defer final action until they have received from the Director an expression of his views

CHAPTER VII

TRANSFER RULES

69 — 70 No recognised school shall admit a pupil without a transfer certificate from the last school which he attended, and in no case shall a scholar be permitted to attend a class pending formal admission

70 — 71 The form of certificate is given in Appendix VI.

72 Transfers from elementary to secondary schools and *vice versâ* are permissible

71 — 73 Before any scholar is admitted, the parent or guardian shall be supplied with a copy of the school rules, clearly stating the fees which he will be called upon to pay, while the scholar remains in the school, and in case he leaves without notice The copy thus supplied shall be signed by the head of the school on behalf of the managers A similar copy, signed by the parent or guardian, should be preserved in the school

72 — 74 All the fee rules of the school shall be printed on the back of the bill form

73 — 75 Application for a transfer certificate must be made to the head teacher by the parent or guardian of the pupil Whenever possible, he should apply in person, if he cannot do this, he should apply by letter

74 — 76 The certificate must be either granted or refused on the day on which the application is received The only ground on which it may be refused is non payment of fees due Refusals must be given in writing, and must state the amount and nature of fees due, and must be signed by the head teacher

75 — 77 No transfer certificate is valid unless it is in the authorised form Application for a duplicate certificate must be made to the Inspector Should he authorise the issue of the certificate, a fee of Re 1 shall be paid to the school for it.

Corresponding articles of the revised code, 1905.

78 If a scholar has been expelled from a school for misconduct, and a transfer certificate is called for and given, the certificate shall bear the words "expelled for misconduct". — 76

79 When a scholar is admitted on a transfer certificate, he shall not be placed in any class higher than that for which the certificate shows him to be qualified, nor shall he be promoted before the end of the school year, without the previous sanction of the Inspector — 77

80 All transfer certificates must be filed They must be submitted to the Inspector at his visits Each certificate shall bear a serial number, which shall be entered against the scholar's name in the admission register — 78

81 All questions arising between one school and another respecting the enforcement of these rules shall be referred to the Inspector, whose decision shall be final — 79

82 Wilful transgression of any of the foregoing rules will render an aided school liable to suspension, reduction or withdrawal of grant, to forfeiture of the right to send up pupils to the public examinations, and the right to hold scholarships, and in the case of a recognised unaided school to the loss of recognition and attendant privileges — 80

83 The rules in this chapter are inter-provincial Each province will, therefore, annually supply the rest with a list of recognised schools — 81

CHAPTER VIII

Records

84 In every recognized school the following records in prescribed form must be maintained — — 82

(*a*) the latest edition of the code of regulations for European schools in Bengal,

(*b*) an admission register (Appendix VII),

(*c*) attendance registers,

(*d*) salary and scholarship acquittance rolls,

(*e*) a log book, stoutly bound,

(*f*) a portfolio to contain official letters and documents

85 The principal teacher must from time to time make entries in the log book, showing the visits of managers, the progress of the various classes and other facts concerning the school or its teachers, such as the commencement of duty, cautions, illness, etc, which are likely to be required for future reference Such communications from the Inspector as he may direct to be inserted in the log-book must be copied *verbatim* therein — 83

86 The only persons authorised to make entries in the log book are the principal teacher and the Inspector The log book shall be kept in the custody of the principal teacher, but shall be open at all times to the inspection of the managers No entry once made in the log-book may be removed, nor may it be altered otherwise than by a subsequent entry — 84

NOTE —A visitors' book may be kept for the remarks of other persons visiting the school

87 At the commencement of each calendar year, the name of every teacher who is to form part of the school staff for the year, and the distribution of the work among them, shall be entered in the log-book signed by the principal teacher Any subsequent change in the staff, or in the distribution of the work, shall be recorded in the log book — 85

88 The books of every school should be kept so as to show month by month the fee actually paid for each scholar, these entries should be verified by the auditor, and a nominal list should be prepared annually by each school and submitted to the Inspector showing the cases in which reductions have been made in the fees exacted, with a brief statement of the reasons, and showing what school (if any) the scholar has previously attended and what was the rate of fee paid for him there — 86

89 The Inspector is entitled to examine all school records at any time — 87

Corresponding articles of the revised code, 1905

103 and 104 — 102 Elementary scholarships shall be awarded on the results of the elementary school final examination These scholarships may be held (1) either for two years at a recognised elementary school in connexion with a supplementary technical course approved by the Department, or (2 for five years in connexion with an approved course in a recognised institution for professional or technical instruction, or (3) for two years at a recognised elementary school in connexion with a supplementary technical course approved by the Department, and for the three years immediately subsequent in connexion with an approved course in a recognised institution for professional or technical instruction

103 and 104 — 103 Secondary scholarships shall be awarded on the results of the Cambridge University local examination for the award of senior school certificates These scholarships are tenable for two years by students pursuing a recognised course of study either at some college affiliated to the University, or at some institution for technical or professional instruction approved for this purpose by the Department.

103 and 104 — 104 Collegiate and final scholarships will be awarded by the Department after considering the results of such existing higher examinations as the Local Government shall specify These scholarships are tenable by students pursuing a recognised course of instruction either at some college affiliated to the University, or at some institution for technical or professional instruction approved for this purpose by the Department They will usually be tenable for two years The term will, however, be increased or diminished according to circumstances In the case of arts colleges they will be awarded at the end of the intermediate and bachelor stages, respectively, while, in the case of technical and professional institutions, they will be awarded, as far as possible, at corresponding stages

105 — 105 Candidates for elementary scholarships must be under 15 years on the 31st December in the year of examination Candidates for secondary scholarships must be under 19 years of age on the 31st December in the year of examination No age limits are fixed for collegiate and final scholarships

106 — 106 Scholarships shall be allotted to boys and girls, respectively, before each examination in such proportion as the Department may decide

Nil — 107 To supplement the system of scholarships set forth in articles 102 to 106, a sum of money will be placed annually at the disposal of the Director This sum will be spent on the award to promising pupils of special scholarships designed to enable them to continue their education beyond the stages at which a lack of means would otherwise have compelled them to discontinue it More specifically the purpose of these special scholarships shall be—(*a*) to enable a promising pupil, who is at an elementary school, but whose circumstances would not allow him or her to continue his or her studies, either to remain at such school to the end of the elementary school course, or to pass on to a secondary school, and (*b*) to enable a promising pupil, who is at a secondary school, but whose circumstances would not allow him or her to continue his or her studies, to remain at such school to the end of the general or upper school course

Nil — 108 The scholarships referred to in the last article will be awarded at the discretion of the Director in consideration of merit and poverty Managers of schools will be invited to send up suitable candidates with a record of their previous school career, and then, if necessary, the Inspector of European Schools will hold a test examination The period for which these scholarships will be tenable will be determined by the Director. The rates at which these scholarships will be awarded by the Director will not exceed but may at his discretion be less than, those shown below —

	Rs
(*a*) For a scholarship held in the infant class or in classes I to IV of an elementary school	8 a month
(*b*) For a scholarship held in classes V and VI of an elementary school	12 "
(*c*) For a scholarship held in the infant class or in classes I to IV of a secondary school	12 "
(*d*) For a scholarship held in classes V to VIII of a secondary school	15 "
(*e*) For a scholarship held in classes IX and X of a secondary school..	20 "

Corresponding articles of the revised code, 1905

109 Proportionate deductions will be made in the amount of a scholarship for every day's avoidable absence from school — 107

110 A scholarship may be reduced or withdrawn in cases of misconduct, of continued absence or of insufficient progress in studies — 108

111 A scholarship may be transferred from one school to another with the sanction of the Department, or from one Province to another, provided that the Department is satisfied that the circumstances justify the transfer In the latter case the amount shall be transmitted by means of a transfer receipt, which will be issued at par — 109

CHAPTER XI

Training institutions

112 A training institution must include a practising school working under this code, having a staff of teachers sufficient in number and fully competent to carry on both the ordinary work of the school and the training of students according to the following rules, and having also the requisite accommodation for doing so — 111

113 No grant will be given to a training college, until the Department is satisfied on the following points — — 112

(a) That the building is well suited for the purpose, namely, that it satisfies the conditions of article 37 (b), that a sufficient number of the rooms in which classes are taught are large enough for the students to be present and to watch the teaching of a class, and are in other ways adapted to that purpose, and that there are sufficient and suitable additional rooms in which the students can receive further instruction and training

(b) That the institution is satisfactorily furnished and equipped with all necessary school appliances, with scientific and other apparatus, and with a good educational and reference library for the use of the students

(c) That the institution is staffed with good teachers (1) fully competent to conduct the work of the school and to train and teach the students in the manner which may from time to time be prescribed under article 116, and (2) sufficient in number for that purpose

(d) That the school satisfies the conditions of article 37

(e) That the school classes are sufficiently large to serve the students for practising purposes

(f) That approved arrangements are made for the boarding and the home supervision of the students, in hostels or otherwise

Section II —*Admission to training institutions*

114 A candidate for admission to a training college must produce a satisfactory certificate of moral character, and must also satisfy the following conditions — — 113

(a) That he is at least 18 years of age [In the case of training schools, he shall be of such an age as the Department shall fix.

(b) That the state of his health is satisfactory, and that he is free from any infirmity or bodily defect likely to interfere with the profession of a teacher

(c) That he has passed one of the school final examinations prescribed for secondary schools, or is considered by the Inspector to be educated up to that standard, or that he is certified by the Inspector as likely to benefit by the training [In the case of training schools, such initial literary qualifications as the Department may provide]

115 Selected candidates will be on probation for two months, at the end of which time the principal shall state whether the student is likely to profit by further instruction — 114

Corresponding articles of the revised code 1905

SECTION III.—*Courses of studies*

115 and 116

116. The courses of studies will occupy not less than two years, and will be as prescribed from time to time by the Local Government.

117

117. At the termination of his training college or training school career, each student shall receive a letter from the Department, certifying that he has received the complete training college or training school course of instruction in the science and art of teaching. The letter shall also state whether the student has satisfied the Inspector in his practical test at the close of his college or school course, and also whether he has passed a written examination on school management and the art of teaching.

SECTION IV.—*Hostels and boarding arrangements*

118

118. All students under training must, unless specially exempted by the Inspector on the recommendation of the principal, reside in a hostel or boarding house attached to the institution.

119

119. The hostel or boarding house must satisfy the following conditions:—

(*a*) That the building is healthy, and sufficiently commodious to allow of quiet, uninterruped home work.

(*b*) That the rules of the hostel and the arrangements for the general supervision of the students, including their moral training, comfort and recreation, are approved by the Department.

(*c*) That it has a reading and recreation room, properly supplied with papers and magazines, especially periodicals bearing on educational subjects.

SECTION V.—*Grants*

120

120. Aid will be given to training institutions in the form of fixed grants (article 45).

SECTION VI.—*Stipends.*

121

121. Each student shall be given a stipend by Government. The amount will be fixed by the Local Government.

122

122. Government may, in special cases, pay the boarding fees of students who have been educated in orphanages or free schools.

APPENDIX II (ARTICLE 25)

The curriculum for elementary schools

It is recommended that the infant class should be divided as may be found necessary or desirable The terms "lower division" and "upper division" used below are to be taken as referring generally to the younger and the older children, respectively

The following curriculum is recommended for the infant class —

LOWER DIVISION

1 *Reading* —Some consistent method of teaching reading should be followed, and the antiquated system of using the alphabet should be discontinued The phonetic method is recommended as being an excellent one, and one which has the advantage of having been worked out systematically by Miss Nelly Dale in her primers and readers It is also recommended that, until children can read and write fairly difficult English, the system of sounding the words should be continued, and that alphabetic spelling should not be resorted to The work of this division should consist of (*a*) the teaching of the sounds and their symbols either by means of Miss Dale's apparatus or by well-graded reading sheets, (*b*) the sounding, reading and writing of words of one syllable

2 *Writing* —It is recommended that a certain amount of drawing should always precede writing The first stage of writing should be the drawing of letters in sand

3 *Arithmetic* —(*a*) To learn from concrete examples the numbers 1—10 and to recognise groups of numbers, not larger than 10, (*b*, to add and substract these groups of numbers, (*c*) to write the numbers 1—20 with an understanding of notation

4 *Observation lessons* —These lessons should be the centre of the teaching, and should serve the purpose not only of sense-training but also of training in language The observation lessons of this division should be confined to lessons on natural objects well known to the children, *e g*, flowers, fruits, leaves, animals, etc

5. *The occupations* —

(*a*) Drawing—This should form a part of every observation lesson, the drawing to be done, if possible, with chalk on black boards, if this is not possible, it should be done with chalk on slates or on large sheets of brown paper

(*b*) Brush-work—To be practised, where possible, in connexion with the observation lessons

(*c*) Clay modelling—To be correlated, where possible, with the drawing and observation lessons

6 *Lessons on geometrical form* —As illustrated by Froebel's gifts I and II

7 *Needlework* (*for girls only*) —Girls should be taught needle drill and kindergarten sewing on such materials as card-board and canvas

UPPER DIVISION

1 *Reading* —Words of at least two syllables to be sounded, read and written A simple reading book to be used

2 *Writing* —First, writing on black boards or slates with chalk, then, writing with a pencil, and finally, with a pen Children should be able to write words of two syllables between double lines before entering class I

3 *Arithmetic* —

(*a*) Notation 1—999.

(*b*) Very simple addition and subtraction not involving figures higher than 999

(*c*) To build up the multiplication table as far as 4×12

(*d*) Very simple practical work in measuring and weighing.

4 *Observation lessons* —Very elementary observations of the movements of the sun and moon, points of the compass, clouds, rain, etc

(*b*) Elementary observations on flowers and fruits, the process of germination and growth of plants

5 *The occupations* —

(*a*) Drawing

(*b*, Brush-work

(*c* Clay modelling On the lines prescribed for the lower division, the work being correlated with the observation lessons

6. *Lessons on geometrical form* —As illustrated by Froebel's gifts III, IV, V and VII.

7 *Needlework* (*for girls only*) —Girls should be taught to hem on coarse materials with coloured cottons

Music—Must be taught in both divisions of the infant class and throughout the school by class singing It should include the practice of good songs, together with reading at sight (in both notations where possible) and a training in elementary musical knowledge National songs should be freely used even in the lower classes The care of the voice and the proper application of breathing exercises should also receive attention

CLASSES I TO VI

As regards the work of the classes above the infant class, it is not considered to be immediately desirable to attempt to prescribe in detail the exact amount of each subject which should be taught in each class Except in the case of arithmetic and needlework, for which detailed syllabuses have been prescribed, the general scope and object of the subject is indicated below, and it is left to each school to arrange its own curriculum, subject to the approval of the Department and on the understanding that no subject of the required curriculum may be omitted except with the permission of the Department It will be incumbent on each school to submit annually to the Inspector a copy of its curriculum, which he shall examine with a view to ascertaining whether adequate provision is made in it for the efficient teaching of each of the prescribed subjects

The following recommendations are put forward with regard to the various subjects of the curriculum —

1 *The English language*—including reading, composition, grammar, poetry and literature.

The aim of the reading lesson is, on the one hand, to teach intelligent reading aloud and clear enunciation, on the other hand its aim is to enable the pupils to gather information from printed or written matter The latter object can be attained by silent reading as well as by reading aloud, and both these methods should be habitually made use of Even in the first class the children should be encouraged to read to themselves

Composition—Is not more than a form of expression and differs only from speaking by being, perhaps, more carefully considered and executed Every lesson, therefore, even those given to the youngest infants is in some sense a vehicle for the teaching of composition. Time should be set apart for this subject in each class above the infant class, but the aim of the composition lesson should never be lost sight of in any lesson The gap between written and oral speech is a formidable one, and the bridging of it in such a way as not to check a child's natural expansiveness, which should, at this stage, have developed into a certain power of expression, is all important The aim should be to make the pupil realise that composition is a habitual activity, and that every time he talks he is composing. In its earliest stages then composition should be purely oral, and, as a means of transition to the written, it is suggested that before the children attempt to write compositions of their own, they should have frequent practice in the reproduction of stories they have been told or have read, and should occasionally dictate a summary of such a story to the teacher who should write it on the blackboard The practice of oral composition should be continued through all the classes

The selection of reading material is very important. The number of books read in a year should not be limited to the two or three readers or text books hitherto prescribed The reading books should contain stories and passages of literary value only, descriptive, narrative or declamatory In the three highest classes one or two books should be read as wholes, and these books should be studied not only from the point of view of the subject-matter, but also from that of the elements of literary form In these classes the teacher should also occasionally read aloud selected pieces of English literature, and this work should be regarded as a regular part of the curriculum When a passage has been read, the teacher should talk about it to the class, and both in this and in other ways the children should be encouraged to read good books for themselves In the case of day schools every effort should be made to secure the co operation of parents in the matter, and in this connexion it is suggested that the establishment of some kind of home reading union might be found useful Passages of standard English poetry of admitted literary excellence must be learnt and recited in each class

Grammar—Should be taught in the three highest classes only, and in these only so far as is necessary to secure an intelligent comprehension of the structure of the sentences which the scholars speak, read or write, and of the functions of the several words in these sentences

2 *Hand writing*—Should be taught so as to secure speed as well as legibility

3 *Arithmetic* —The following syllabus is recommended —

First class —Notation and numeration of six figures—

Addition tables, multiplication tables to 6 × 12

Simple addition and subtraction

Multiplication with one figure as multiplier as indicated by the tables

Mental exercises to be practised

Second class —Multiplication tables to 12 × 12, also 16 times to 16 × 12

The four simple rules in arithmetic

Indian money tables and Indian weights The use of weights and scales

Reduction of Indian money and of Indian weights in ordinary use

Mental exercises on the above

Third class —Regular practice in all previous work—

Reduction and compound rules in Indian and English money, in Indian weights and measures and English weights and measures—avoirdupois weight and time measures only

Easy problems in the above

Mental exercises on the above rules

Fourth class —Work of previous classes—

The rest of the English measures, namely, long measure, square measure, and measure of capacity

Regular practice in the tables

Easy bills of parcels

G C M and L C M with their application

(Intricate problems to be avoided)

Reduction to lowest terms, to a common denominator, easy addition, subtraction, multiplication and division of vulgar fractions

Problems and mental exercises on these rules

Fifth class —Work of previous classes—

Simple proportion (by the unitary method), practice

Vulgar fractions, decimal fractions

(Large and involved combinations in these rules to be avoided)

Easy problems, and regular practice in mental work on these rules.

Sixth class.—Work of the previous classes—

Compound proportion

Percentages, interest, profit and loss, traders' discount, calculations connected with rectangular areas and with the capacities of rectangular solids or rectangular spaces of three dimensions.

Problems to be practised

4 *Nature observation work* —Continuation of the observation lessons on plants developing into a systematic study of botany

5 *Geography* —The educational value of geography depends upon the extent to which it makes the pupil take an *intelligent* interest in the world in which he lives "It must not be regarded as a process by which certain facts about the earth or the portion of it on which we live are committed to memory It must rather be regarded as the subject which, above all others, brings the youngest child as well as the most advanced student into contact with the outside world—the world of nature as distinct from the world of books" Properly taught geography cultivates the habit of accurate observation, it develops a perception of cause and effect in nature which may lead the pupil in after life to reason about things, instead of taking them for granted and, inasmuch as the more advanced pupil must use his imagination to enable him to realise conditions outside the range of his own observation, it provides a discipline—the conditioned exercise of the imagination—which has a value of its own The value of geography as a correlating subject should constantly be kept in mind by the teacher No teaching is so fruitful and interesting as that in which one subject is made to throw light upon another The connexion between history and geography is especially close, and, indeed, a knowledge of the geography of a country is the necessary basis of an intelligent study of its history

The early part of the course should consist of "home geography" closely correlated with nature study The geography of the locality, from the school outwards, should be taught with the object of bringing out those elementary general principles which find illustration on all parts of the earth's surface, and especially those which have a direct bearing upon human interests Stories of travel and adventure by land and sea in different parts of the world should be told to illustrate the varying conditions due to configuration and climate, and their effect on the nature of plant and animal life

After this the course should aim at giving a general knowledge of the earth's surface and the conditions prevailing upon it, including the distribution of land and water, the main features of the relief of the land, and the climatic and other consequences of these distributions The great natural regions of the world should next be separately treated, with special reference to the chief river basins and water partings and the influence of relief, climate and other conditions upon plant and animal life, and, in particular, upon human life and activity The names and positions of great countries, the names of a few of the chief towns in each country and the reasons for their situation and importance and the most important world trade and travel routes should be known The geography of India and England should be treated in somewhat greater detail

It is, perhaps, necessary to warn teachers that the parts of geography which touch upon mathematics, and which also make too great a demand upon the imagination of young children, *e g*, the shape, size and motions of the earth and their consequences, should not be taken too early in the course

6 *History* - The earliest history teaching should be mainly biographical, the lives of great men in English and Indian history The introduction should be oral, and the lives should be so selected that lessons may be drawn from them suitable to the age and intelligence of the pupils

The object of the more advanced teaching should be to give the pupils a connected knowledge in outline of the main course of English history, with a more detailed treatment of the history of the English in India Only the very broadest treatment of the history of India prior to the connexion of the English with India is necessary

Much care is necessary in the selection of the topics to be dealt with The main object of the course is to enable the pupil to understand the position he will one day occupy as a citizen of the empire This involves some knowledge, not only of the development of British liberties, but also of the growth of Britain as a world power, a knowledge, moreover, not merely of wars and battles, and the exploits of great men, but also of the changes caused by geographical discovery, new inventions and the progress of science.

But, while the knowledge imparted must be connected knowledge, all details not necessary in an elementary course must be omitted, the topics chosen being treated with sufficient fulness to make them intelligible in relation to one another, and the general course of history

Only the most important dates should be committed to memory Maps, including physical maps, should be in constant use for reference and illustration

7 *Drawing* —In classes I and II the free arm drawing in chalk should be continued Drawing with a pencil on paper should begin in class III The drawing in the first four classes should be from the object, and not from the flat, except as an occasional exercise in free-hand drawing In classes V and VI model drawing and the principles of perspective should be taught

8 *An Indian Vernacular* —This should be taught in the three highest classes only This will not be compulsory in the case of girls' schools The aim of this teaching should be to enable the pupils to speak the vernacular studied both fluently and correctly, as also to be able to read it both from printed matter and from manuscript and to write it with some degree of facility

9 *Hand-work* —Any form of hand work generally recognised as suitable for schools should be allowed Hand-work should be regarded as of primary importance for boys, but should girls' schools desire to take it up, they should not be debarred from receiving the same assistance towards the necessary plant and equipment as is given by Government to boys' school

10 *Needlework*—(for girls only)—

(*a*) *First class* —Hemming on coarse material, *e g* , a Holland apron , the hem to be turned down by the teacher The children to be taught to secure the thread both at the beginning and at the "ending off" of the work Plain knitting with two needles, *e g* , a pair of gaiters

Cross stitch on coarse canvas in straight lines

(*b*) *Second class* —To practise all work previously learnt Hemming on finer material, *e g* , a handkerchief The children to learn to turn down the hem

Knitting plain and purl, *e g* , a comforter

Cross stitch on canvas forming a simple design up and down, *e g* , the border of a mat, or kettle holder

(*c*) *Third class* —To practice all work previously learnt To learn to make a pinafore or some other garment of similar difficulty, in which hemming, running and felling are shown

To learn to knit a pair of ribbed cuffs

To learn to mark the simple letters of the alphabet on canvas

(*d*) *Fourth class* —To practise all work previously learnt

To learn to make a flannel banian or a flannel petticoat, introducing herring bone stitch

To learn to knit a pair of baby's socks

To learn to mark all the letters of the alphabet on canvas

In this and in the higher classes, the girls should be taught to mend their own clothes, and to darn their own stockings

(*e*) *Fifth class* —To practise all work previously learnt

To learn to cut out and to make a child's chemise requiring gathering, stroking and the making of button-holes

To practise in marking the letters of the alphabet on coarse calico
To knit larger socks

In this and in the higher classes the girls should be taught to mend their own clothes and to darn their own stockings

(f) *Sixth class* —To practise all work previously learnt

To learn pleating and frilling
To knit a pair of stockings for a child, 10 or 12 years old
To mark ordinary articles of dress
To cut out and make a little frock with a whipped frill at the neck, and having two tucks at the bottom with feather or coral stitch worked thereon

APPENDIX III (ARTICLE 27)

SUPPLEMENTARY TECHNICAL COURSES FOR ELEMENTARY SCHOOLS

The following are recognized under article 27 of this code as supplementary technical courses for elementary schools —

1 —*The commercial course*

(1) Book-keeping (including the purpose and proper form of commercial documents)
(2) Hand writing to secure speed while preserving legibility and correctness of form
(3) Short hand
(4) Type writing
(5) Commercial geography

2 —*The industrial course*

(1) Geometry
(2) Algebra
(3) Mensuration
(4) Mechanics
(5) Wood work or iron work

3 —*The agricultural course*

(1) Mensuration (with regard to land measurement and surveying)
(2) Elementary agricultural botany, chemistry and geology
(3) Study of newspaper market reports
(4) Repair of agricultural instruments

4 —*The domestic course*

(1) Cookery and general house management
(2) Dress making, embroidery and lace making
(3) Sick-nursing and dispensing

The first two years of the apprentice course of the Civil Engineering College, Sibpur, are recognised as alternative with course 2 (industrial course), and the following general subjects must be taken in connexion with all the courses—

(1) English—(*a*) literature (study of standard literature)
(*b*) composition
(2) Arithmetic—applied arithmetic and practice in expertness of calculation
(3) The keeping of ordinary accounts
(4) Drawing

APPENDIX VIII (ARTICLE 96)

UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS

Regulations for the Examinations for School Certificates for the year 1908

These regulations must be read in connexion with the regulations for the Cambridge University local examinations (article 96 of the code)

SCHOOL CERTIFICATES

School certificates of two grades will be awarded under the conditions set forth below, to candidates in the Cambridge junior and senior local examinations who are presented for examination from schools accepted for this purpose

In order to be accepted, a school must be inspected by the Syndicate, or by the Board of Education, or by some other inspecting body under conditions approved by the Syndicate, and the report of such inspection must be approved by the Syndicate as satisfactory

A junior school certificate will be awarded to any candidate who—

(1) shall have attended one or more schools accepted for the purpose of school certificates for at least *two* years, continuously up to the time of the examination,

(2) shall have passed the junior local examination in 1908 under the conditions which were given below

A senior school certificate will be awarded to any candidate who—

(1) shall have attended one or more schools accepted for the purpose of school certificate for at least *three* years continuously up to the time of the examination,

(2) shall have passed the senior local examination in 1908 under the conditions which are given below

A candidate who has obtained a junior or a senior school certificate may have additional subjects endorsed on the certificate already gained, provided that the candidate, while still at an accepted school, passes in such subjects at a subsequent examination of the same grade

JUNIOR SCHOOL CERTIFICATES

A candidate for a junior school certificate must satisfy the examiners in the junior local examination in—

(1) Dictation and arithmetic,

(2) Section 2 (English language and literature),

(3) One at least of the five sections 4—8 (Latin, Greek, French, German, Spanish),

together with at least three of the nine following sections or parts of sections, which must be selected from not less than two of the groups I, II and III, namely —

I —(4) Section 1 (religious knowledge),

(5) History of England *or* history of the British Empire *or* Roman history (section 3),

(6) Geography (section 3),

II —(7) Geometry and algebra (section 9),

(8) Trigonometry *or* mechanics (section 9),

III —(9) Section 10 (experimental science),

(10) Section 11 (chemistry, theoretical and practical),

(11) Section 12 (physics), including a special practical examination (*vide* Addendum)*,

(12) Section 13 (botany, etc)

* The names of candidates entering for physics must be sent to the General Secretary separately not later than May 6th or October 6th (according as the examination is to be taken in July or in December) and the cost involved in holding the practical examination must be borne by the school from which the candidates are entered.

No candidate may offer more sections than are permitted by the regulations for the junior local examination

SENIOR SCHOOL CERTIFICATES.

A candidate for a senior school certificate must satisfy the examiners in the senior local examination in—

(1) Arithmetic,
(2) Section 2 (English language and literature), including English composition,
(3) one at least of the six section 4-9 (Latin, Greek, French, German, Spanish, Dutch),

together with at least three of the ten following sections *or* parts of sections, which must be selected from not less then two of the groups I, II and III, namely —

I —(4) Section 1 (religious knowledge),
(5) History of England *or* history of the British Empire *or* Roman history (section 3),
(6) Geometry (section 3),
(7) Political economy *or* logic (section 3),

II —(8) Geometry and algebra (section 10),
(2) Trigonometry, together with *either* analytical geometry *or* differential calculus (section 10),
(10) Applied mathematics (section 10),

III—(11) Section 11 (chemistry, theoretical and practical),
(12) Section 12 (physics), including a special practical examination (*vide* Addendum) *
(13) Section 13 (botany, etc)

No candidate may offer more sections than are permitted by the regulations for the senior local examination

* See the foot note under Junior school certificates '

ADDENDUM

PRACTICAL PHYSICS

The scope of the practical examination in physics for school leaving certificates will be as follows —

JUNIORS

(*Candidates will not be required to answer questions in more than two of the three subjects heat, sound and light, electricity and magnetism*)—

Heat —Comparison of Fahrenheit and Centigrade scales, and testing the fixed points of a thermometer Determination of specific heats by the method of mixture Determination of latent heat of fusion of ice Simple qualitative experiments to illustrate the laws of heat

Sound and light —Velocity of sound by resonance column Experiments on tones emitted by stretched wires or strings Experimental verification of the laws of reflexion and refraction The use of prisms Experiments with concave mirrors and convex lenses

Electricity and magnetism —Distinction between magnetized and magnetic substances Mapping fields of magnetic force. Comparison of pole strength The use of the electroscope and electrophorus Setting up simple cells Comparison of currents, electromotive forces, resistances by use of the tangent galvanometer Deposition of copper by electrolysis

SENIORS

(Candidates will not be required to answer questions in more than two of the four subjects Mechanics, heat, sound and light, electricity and magnetism)—

Mechanics —The comparison of scales, the measurement of lengths, areas and volumes, the spherometer, experiments on moving bodies, experiments with the pendulum, experimental and graphical treatment of systems of forces, the use of the balance, simple machines, the determination of co efficients of friction, centre of gravity, measurement of work, measurement of density and specific gravity, measurement of fluid pressure, the pressure of gases, the barometer

Heat —The use of thermometers, the determination of melting points and boiling-points, the measurement of specific heat, capacity for heat, latent heat, the use of hygrometers, measurement of vapour pressure, measurement of co efficients of expansion of liquids and gases, the air thermometer

Sound and light —Velocity of sound in air or other gases Experiments on tones emitted by stretched wires or strings Determination of pitch of tuning forks Experimental study of paths of rays after reflexion and refraction, the uses of mirrors, lenses, prisms, and combination of two lenses, photometers

Electricity and magnetism —Experiments with magnets, moments of magnets, strength of magnetic field Use of the electroscope, electrophorus, condenser, the use of galvanometers, the measurement of currents and resistances, the comparison of electromotive forces

RESOLUTION ON THE ADMINISTRATION REPORT OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1907-08

No 3428Marine

Government of Bengal

MARINE DEPARTMENT

Dated Calcutta, the 27th November 1908

RESOLUTION

READ—

Administration Report of the Commissioners of the Port of Calcutta for 1907-08

Revenue receipts and expenditure

The income of the year amounted to Rs 1,09,57,142 as compared with Rs 1,00,08,737 in 1906 07 The expenditure amounted to Rs 1,07,84,105, the surplus being Rs 1,73,037

Capital outlay

2 The expenditure during 1907 08 upon Capital Works was Rs 33,54,878 The more important works completed or in progress during the year were extension of the Jetties, remodelling of the Budge Budge Petroleum Depôt, sixty additional open wagons, Hide Depôts at the Docks, extension of the Hydraulic Pumping station at the Docks, extension of Dock No 2, the opening of Ferry Service with seven steamers, new workshops and stores building at Garden Reach, further extension of the Sale Tea Warehouse at the Docks, and the Suction Dredger *Sandpiper*

Capital Account

3 The Capital debt of the Trust on 31st March 1908 was Rs 6,25,16,051 Against this the Commissioners hold properties aggregating Rs 8,39,84,819 This sum does not fully represent the value of the Commissioners' properties, as a large area of land is included in the assets at cost price only The Commissioners have also accumulated Rs 68,26,039 at credit of their Sinking Fund for repayment of debenture loans

Depreciation and Fire Insurance Funds

4 In addition to the Revenue Reserve Fund and Sinking Funds, the Commissioners have a Depreciation Fund for vessels and plant and a Fire Insurance Fund The balance at credit of the Depreciation Fund on 31st March 1908 was Rs 1,33,727 The balance at credit of the Fire Insurance Fund was Rs 6,65,801

Working results of 1907 08 compared with 1906 07

Control

6 The Commissioners strengthened the establishment by the appointment of special officers, more particularly in the Accounts and Audit section

Jetties

7 The income from the Jetties has been steadily increasing During the year under review there was a further gain by the extension of the Jetties southward and the consequent absorption of the China and coasting traffic The increase in expenditure was due to the higher price paid for coal, the larger crane establishment now employed and the larger proportion of the cost of dredging now debited to this head

Traffic at Jetties

8 During the year under review 264 vessels with an aggregate tonnage of 895,525 were accommodated at the Jetties against 224 vessels with 764,419 tons during the preceding year The improvement was due to No 2 Jetty having been re-opened to traffic

Petroleum wharf, Budge Budge

9 There was an increase of 6,046,697 gallons in the imports of case and bulk-oil, but a falling off in the receipts other than rents This is due to the fact that storage charges for case oil are gradually diminishing under the arrangements for the remodelling of the Petroleum Depôt

Rentable lands and buildings

10 The Port Commissioners now derive a large net revenue (Rs 9,98,403 in 1907 08) from lands and buildings This is a growing source of income

Port and Port approaches

11 There was a falling off in the income under the heads Port and Port approaches, which is derived from Port dues and by charges for special services rendered, owing to the fact that there was a decrease in the number and tonnage of the vessels visiting the Port

12 The following figures illustrate the work done by the Survey Branch of the Port Approaches Department —

	1885	1900 01	1903 04	1906 07	1907 08
Miles sounded*	1,295	5,864	7,679	7,956	8,082

Number of buoys (Calcutta to Diamond Harbour)	7	30	44	48	50
River marks	57	115	138	229	229

The number of soundings actually taken and recorded by the Surveyors in field books was 744 500 against 657 836 in 1906 07 The improvement of the channels by dredging was for the first time undertaken in 1907 08 by the suction dredger *Sandpiper*

Wet Docks

13. The income obtained from the wet docks is large, but the expenditure grows with the income, and there is still a loss on the actual working, leaving out of account the heavy interest charges The export of coal remained at nearly the same figure as in the previous year, or just over 3,000,000 tons

Dry Docks

14 The dry docks continue to be fully employed and give a good return

River Dues

15 The revenue obtained from the river due amounted to over 18 lakhs, and there was a substantial increase of nearly four lakhs over the income of the previous year

Ferry Service

16. The Ferry Service was started on the 1st October 1907 with seven steamers The traffic is rapidly increasing On an average more than 500,000 passengers in a month are now being carried

17 Mr F G Dumayne held the office of Vice Chairman He proceeded on leave for six months from 26th April 1907, and Mr F. Palmer, C I E, acted in his place

18 The thanks of the Lieutenant Governor are due to the Commissioners for their able management of the affairs of the Trust during the year under review His Honour desires specially to acknowledge the excellent work done by Mr Dumayne which has been of great value to Calcutta and to the trade interests of Bengal

By order of the Lieutenant Governor of Bengal,

W. A. INGLIS,

Secretary.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE HOWRAH BRIDGE FOR THE YEAR 1907-08

No. 3436Marine

MARINE DEPARTMENT

Dated Calcutta, the 28th November 1908

RESOLUTION

READ—

The Administration Report of the Howrah Bridge for the year 1907 08

The income of the year amounted to Rs 2,40,593 and the expenditure to Rs 2,21,111, as compared with Rs 2,37,016 and Rs 2,06,654, respectively, in the previous year There was, therefore, a surplus of Rs 19,482 in 1907-08, as compared with Rs 30,362 in 1906-07 The rise in the expenditure during the year under review is chiefly due to increases under the heads "Establishment," "Working expenses" and "Repairs"

2 The receipts from the toll, payable by the East Indian Railway, for the traffic passing over the Bridge, amounted to Rs. 2,16,360, against Rs 2,12,474 in the previous year

3 The system of opening the Bridge at night for the passage of the river traffic has worked satisfactorily.

4 The following statement shows the number of vessels that passed through the Bridge during 1907-08 and the previous ten years —

	1907-08	1906 07	1905-06	1904-05	1903 04	1902 03	1901 02	1900-01	1899-1900	1898-99	1897 98

RESOLUTION ON THE ANNUAL REPORTS ON INLAND EMIGRATION UNDER ACT VI OF 1901 DURING THE YEAR ENDING THE 30TH JUNE 1908

GENERAL DEPARTMENT—EMIGRATION

Calcutta, the 25th November 1908

RESOLUTION—No 8163

READ—

The Reports on Inland Emigration under Act VI of 1901 for the year ending the 30th June 1908, submitted by the Superintendents of Emigration, Calcutta, the Sonthal Parganas, Hazaribagh, Ranchi, Palamau, Manbhum and Singhbhum, and Sambalpur

Read also—

The remarks of the Commissioners of the Bhagalpur, Chota Nagpur and Orissa Divisions on the reports submitted by the Superintendents of Emigration in their respective Divisions

The orders of the Government of India on the Report of the Assam Labour Committee of 1906 were issued during the year under review, and several important administrative measures based on the Committee's recommendations were introduced in this Province As mentioned in the Resolution recorded on the last year's reports, the so called "free" recruitment under section 92 of the Act, which was a fertile source of abuses, was prohibited throughout the Province, and recruitment by contractors under Chapter III of the Act was stopped in the districts of the Patna and Bhagalpur Divisions, with effect from the 1st November 1907 Other changes with regard to this method of recruitment are still under the consideration of the Government With a view to the encouragement of genuine free recruitment through *bona fide* garden sardars, special concessions were granted to the Tea Districts Labour Supply Association, under which garden sardars working under the control of the Local Agents of the Association were authorised to forward unindentured emigrants without producing them before a Registering Officer The necessary checks have been provided by requiring the monthly submission by Local Agents of complete lists of emigrants, and by empowering any Magistrate and any Police officer above the rank of Sub-Inspector to inspect the Local Agents' registers at any time A further safeguard is provided by the condition that no person recruited in this way shall be required to enter into a labour contract under the Act A reference was made in the last year's Resolution to the practice of illegally despatching emigrants without registration from certain British districts, as having been recruited in the adjoining Native States This abuse, which was becoming serious, will, it is hoped, be stopped by the orders since issued by this Government, which require that emigrants recruited in Native States shall be registered in the first British district they enter In order to prevent the issue of contractors' licenses to unsuitable persons all Superintendents of Emigration in this Province were instructed to consult the Magistrates of the principal recruiting districts as to the antecedents of applicants before the grant of licenses

2 The number of emigrants of all classes recruited in Bengal, Madras, the Central Provinces and the United Provinces, who embarked during the year at Goalundo, was 81,587 against 24,503 in the previous year, this striking increase is attributed to the scarcity and high prices of food stuffs prevailing in the recruiting districts The total number of emigrants registered in this Province under Chapters III and IV of the Act was 8,748 and 6,825, respectively, compared with 2,347 and 3,817 in 1906 07, while 1,865 emigrants, as against 1,324 in the previous year, were recruited by garden sardars holding special permits, under section 90 of the Act. Twenty-one thousand four hundred and fifteen emigrants were recruited by garden sardars working under the control of the Tea Districts Labour Supply Association Of these only 1,382 were registered under the Act, and the remaining 20,033 were sent away unregistered, in accordance with concessions granted to the Association

The number of emigrants reported to have been recruited according to the "free" system under section 92, which was in force only during the first four months of the year, was 4,397, as compared with 13,297 during the twelve months of the previous year

3 The prohibition of the so called "free" emigration under section 92 of the Act led to an appreciable increase in the number of licenses issued to contractors and recruiters, which were 24 and 340, respectively, during the year under review, against 13 and 181 in the previous year The year being specially favourable to recruitment, an unusually large number of garden sardars were sent down from the tea gardens The total number employed was 7,010 or 2,939 more than in the previous year Of these 545 held special permits under section 90 of the Act, 1,411 worked under the ordinary procedure of Chapter IV, and the remaining 5,054 worked under the control of the Tea Districts Labour Supply Association

4 The number of criminal cases in connection with recruitment fell from 149 in the previous year to 81 in the year under review, and the number of persons convicted was 50 as against 60 in the year 1906 07 The figures would seem to indicate that illegal practices are gradually diminishing, but abuses are still reported from some districts There is, for instance, reason to believe that emigrants are illegally recruited in the areas which have been closed to recruitment under Chapter III of the Act, and conveyed to contractors' depôts situated outside those areas It is the duty of every Registering Officer to satisfy himself before registering any emigrant that such emigrant has been properly recruited within his jurisdiction Instructions have recently been issued insisting that this duty shall be properly fulfilled

5 There was an outbreak of cholera in March 1908 in some of the places of accommodation and rest houses provided for emigrants Prompt action was taken by the local officers, which successfully checked the spread of the disease

6. There was an improvement in the financial position of the Inland Labour Transport Fund The receipts and the charges during the year under review were Rs 16,918 and Rs 20,872 respectively as against Rs. 8,277 and Rs 20,902 in the previous year The increase in the receipts was due to the larger number of emigrants registered

LIBERALITY OF RAI OMRITO NATH MITTER BAHADUR

Extracts from a letter No 8031, dated the 24th November 1908, from the Secretary to the Government of Bengal, General Department, to the Director of Public Instruction, Bengal

WITH reference to the correspondence ending with your letter No 13132, dated the 16th July 1908, I am directed to say that the Lieutenant Governor is pleased to accept, on the conditions enumerated below, the offer of Rs. 3,000 in 4 per cent Municipal Debentures made by Rai Omrito Nath Mitter Bahadur for the purpose of founding two free studentships in the Hindu School, Calcutta, in commemoration of his son Dhirendra Nath Mitter, who was a student of the School —

(1) The studentships will be named after the late Babu Dhirendra Nath Mitter

(2) They will be tenable for four years from the fourth class up to the Entrance class

(3) The students shall be nominated by the founder or by the senior surviving male member of his family, the nominations to be approved by the Principal of the Presidency College In case there shall be no male heir of the founder or in case such male heir refuses to nominate, the Principal of the Presidency College shall fill the vacancies at his discretion

(4) A tablet is to be placed in the Hindu School hall, containing the name of the founder and the name of the boy in whose memory the studentships are to be created

(5) The two selected students shall be subject to all the rules of the school. The studentships may be withdrawn by the school authorities for unsatisfactory conduct or for other sufficient reasons The occurrence of vacancies in the studentships shall be reported by the school authorities to the founder, who will make fresh nominations, subject to the approval of the Principal of the Presidency College "

2 The Lieutenant Governor also sanctions the proposal that a memorial tablet should be placed in the hall of the Hindu School building, the inscription on which will run in the following terms —

" Dhirendra Nath Mitter free studentships founded by Rai Omrito Nath Mitter Bahadur to commemorate the memory of his son Dhirendra Nath Mitter, a student of the Hindu School, who died in the year 1901 "

The cost of the tablet, its fixing, inscription, &c., will be paid by the donor

The mean pressure, temperature, etc , are deduced from the traces of the Kundsen's Barograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

The following are the conditions of sale —

1. The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M, in the after-noon of the fifth day after the sale provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

DEPOSIT

When the amount bid is less than Rs. 1 200 per chest, Rs. 200 per chest

On bids of Rs. 1,200 and upwards but less than Rs 1 600 per chest, Rs 300 per chest

On bids of Rs 1 600 and upwards but less than Rs 2 000 per chest, Rs 400 per chest

And so on, Rs 100 being added to the deposit for every bid additional to the extent of Rs 400

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re sale or expenses thereby incurred, but shall be recoverable whether such re sale shall be had or not, or whether there shall be a loss on such re sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3 30 P M of the fifth day following the day of sale, or 1 30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3 30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P M, and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book, or his authorised agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *bona fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue —

No 1, Certificate of the opium advertised for sale,

No 2, Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1907-08, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue,

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug which may be preferred on reference to chests after the sale and delivery of the opium for shipment

By order of the Board of Revenue, L P,

S G BHATTACHARJEE,

Secretary.

PART IA

[*Reprinted from the "Gazette of India" of the 28th November 1908*]

The following order, issued by the Government of India in the Home Department, is republished for general information

F W DUKE,
Offg Chief Secy to the Govt of Bengal

Nos 1198—1201, dated Calcutta, the 21st November 1908

RESOLUTION—By the Government of India, Home Department

Appointments ordinarily filled by members of the Indian Civil Service to be thrown open to members of the Provincial Civil Service in the Province of Eastern Bengal and Assam

ON the creation of the province of Eastern Bengal and Assam the following appointments, which are ordinarily filled by members of the Indian Civil Service, were, subject to confirmation by the Secretary of State for India, thrown open to members of the Provincial Civil Service in that province —

(*a*) Headships of districts	2
(*b*) District and Sessions Judgeships	2
(*c*) Junior Secretaryship, Board of Revenue	1
(*d*) Under or Assistant Secretaryship	1

2 As the result of further consideration, it was decided to recommend to His Majesty's Secretary of State that the above arrangements should be confirmed, subject to the modification that the post of Assistant Secretary should be converted into an Under Secretaryship, so soon as it should be vacated by the present holder, and that one post of Under Secretary, instead of an Under or Assistant Secretaryship, should be listed as open to the Provincial Service in Eastern Bengal and Assam These proposals have now received the sanction of the Secretary of State, and the Governor General in Council is accordingly pleased to direct their confirmation, effect being given to the above modification in the status of the post of Assistant Secretary, as soon as it is vacated by the present incumbent

3 His Excellency in Council is further pleased to declare, with the Secretary of State's approval, that the following rates of pay shall be attached to the several appointments in question when held by officers of the Provincial Service —

	Rs
(*a*) Headships of districts—	
1st grade	1,600
2nd „	1,200
3rd „	1,000
(*b*) District and Sessions Judgeships—	
1st grade ..	2,000
2nd „	1,600
3rd „ ..	1,200

(c) Junior Secretaryship, Board of Revenue—Grade pay *plus* a local allowance of Rs 100, subject to a maximum of Rs 1,000 a month

	Rs
(d) Under-Secretaryship	700

4 In paragraph 5 of the Home Department Resolution No $\frac{9 \text{ Public}}{1342\text{-}1353}$, dated the 21st April 1892, the rates of pay for officers of the Provincial Service holding the appointments as District and Sessions Judges in Bengal which were listed as open to that service were fixed as follows —

	Rs
1st grade	1,600
2nd „	1,200

A new grade of District and Sessions Judges having been sanctioned in Bengal since the issue of that Resolution, on a pay of Rs 3,000 when held by officers of the Indian Civil Service, the Governor-General in Council, with the approval of the Secretary of State, is pleased to decide that the pay of an officer of the Provincial Service holding an appointment in this grade shall be fixed at Rs 2,000 The rates of pay for officers of the Bengal Provincial Civil Service holding listed appointments of District and Sessions Judge in the different grades will accordingly henceforth be as follows —

	Rs
1st grade	2,000
2nd „	1,600
3rd „	1,200

ORDER —Ordered that a copy of this Resolution be forwarded to the Governments of Eastern Bengal and Assam and Bengal, and to the Finance Department for information, and that it be published in the Supplement to the *Gazette of India* for general information

Characteristics of Lights—Alterations in Definitions

No 473 (second publication) —The following particulars, etc, relative to the above, issued by the British Admiralty (No 1706 of 1908), are republished —

Subject —The large increase in late years in the variety of lights, exhibited by the different maritime nations, made possible by the more extensive use of lights which alter in colour, has necessitated alterations in the definitions of the characteristics of lights in the Admiralty publications, and also in their designation on the Admiralty charts, as undermentioned

These alterations will be embodied in the Admiralty Lists of Lights for 1909, but some time must necessarily elapse before all the charts can be amended.

Alteration —In Admiralty List of Lights, parts I to VIII, Introductory Remarks, cancel paragraph commencing "Characteristics," and paragraph commencing "Explanation", also cancel note at foot of page, and substitute —

Characteristics —Lights may either show a continuous steady light, or be varied by the introduction of flashes, eclipses, &c They are divided generally into two classes, as shown below in parallel columns, viz —

(1) Lights whose colour does not alter throughout the entire system of changes,

(2) Lights which alter in colour,

both classes having the same characteristic phases

Lights whose Colour does not alter	Characteristic Phases	Lights which alter in Colour
F Fixed	A continuous steady light	Alt Alternating
* Fl Flashing	(*a*) Showing single flashes at regular intervals, the duration of light being always less than that of darkness. (*b*) A steady light with, at regular intervals, sudden and total eclipses, the duration of light being always less than that of darkness	* Alt Fl Alternating flashing
* Gp Fl Group flashing	Showing groups of two or more flashes at regular intervals.	* Alt Gp Fl Alternating group flashing
* Occ Occulting	A steady light with, at regular intervals, sudden and total eclipses, the duration of darkness being always equal to or less than that of light	* Alt Occ Alternating occulting
* Gp Occ Group occulting	A steady light with, at regular intervals, groups of two or more sudden eclipses.	* Alt Gp Occ Alternating group occulting
F Fl Fixed and flashing	A fixed light varied, at regular intervals, by single flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Fl Alternating fixed and flashing
F Gp Fl Fixed and Group flashing	A fixed light, varied at regular intervals, by groups of two or more flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Gp.Fl Alternating fixed and group flashing
*Rev Revolving	Light gradually increasing to full brilliancy, then decreasing to eclipse	* Alt Rev Alternating revolving

(U) after the name of a light indicates that it is unwatched

Explanation —Period is the interval between successive commencements of the same phase

In the case of lights which alter in colour, there are, strictly speaking, two periods, viz —one of phase, and one of alternation of colour That shown in the column headed "Period" is the first of these Details of the second are set forth in the column headed "Remarks"

The bearings are magnetic, &c, &c

* * * * * * *

* NOTE —For hydrographic purposes a light is classed as flashing or occulting solely according to the relative duration of light and darkness, and without any reference to the apparatus employed At short distances, and in clear weather, flashing and revolving lights may show a faint continuous light.

The average fall of the corresponding period for 24 years, Surveyor-General's Office	65 73

The mean pressure, temperature, etc, are deduced from the traces of the Kundsen's Barograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground. The rainfall reported on any day is for 24 hours preceding 8 A M of that day

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2 The opium will be ordinarily offered for sale at an upset price of Rs 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs 1,600 per chest, Rs 300 per chest.
On bids of Rs 1,600 and upwards, but less than Rs 2 000 per chest, Rs. 400 per chest
And so on, Rs. 100 being added to the deposit for every bid additional to the extent of Rs 400

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3 30 P M, in the after-noon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1 30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re sale shall be had or not, or whether there shall be a loss on such re-sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3 30 P M of the fifth day following the day of sale, or 1-30 P M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P M, and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchase in the sale book, or his authorised agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *bonâ fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue —

No 1, Certificate of the opium advertised for sale,

No 2, Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1907-08, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug which may be preferred on reference to chests after the sale and delivery of the opium for shipment

Calcutta, the 3rd December 1908

No 10947—23 —In accordance with the provisions of section 18 of the Indian Explosives Act, 1884 (IV of 1884), and of the Notification of the Government of India in the Home Department, No 1964, dated the 2nd September 1887, the Governor General in Council is pleased to publish for general information the following amendments which His Excellency in Council, in exercise of the powers conferred by section 5 of the said Act, proposes to make in the rules regulating (1) the manufacture, possession and sale of explosives, and (2) the transport and importation of explosives, published with the Notifications in this Department Nos 9045—8 (Explosives) and 4555—4 (Explosives), dated the 29th November 1906 and the 31st May 1907, respectively

The draft will be taken into consideration by the Governor General in Council on the expiration of two months from the date of publication of this Notification in the *Gazette of India*

DRAFT AMENDMENTS

I —Rules for the manufacture, possession and sale of explosives, issued with this Department Notification No 9045—8, dated the 29th November 1906

(*a*) Delete the figure '5' from the second line of rule 9 (2)
(*b*) Delete sub clause (ix) of rule 11 (3)
(*c*) Delete clause (4) of rule 14
(*d*) In clause (5) of rule 14 insert the word 'or' before the words "Form D," and delete the words "or Form E"
(*e*) After rule 14 add the following as rule 14 A —

"14-A (1) Licenses may be granted to contractors, cultivators or other persons to possess at the same time not more than 100 lbs of gunpowder, 10 safety fuzes and 10 lbs of other explosives when the same are proved to the satisfaction of the officer granting the license to be required *bona fide* for blasting purposes.

Grant of licenses to contractors, cultivators or other persons to possess explosives for *bonâ fide* blasting purposes

(2) Licenses under this rule may be granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police and elsewhere—

(a) when only gunpowder and fuses are to be possessed, by any Magistrate of the 1st class or by a Magistrate of the 2nd class specially authorised by the District Magistrate in this behalf,

(b) when other explosives are to be possessed, by the District Magistrate

Every such license shall be in Form E in the schedule hereto annexed and shall contain the conditions prescribed therein "

(f) Add the following proviso after rule 16 (1) —

"Provided that if any magazine from which supplies of explosives can be obtained and which is licensed under rule 17 exists within a distance of ten miles from the place approved by the licensing officer under this rule, the quantity of explosives which may be possessed shall not exceed 25 pounds "

(g) Substitute the following for rule 28 (2) —

"(2) no fee shall be charged for licenses granted to contractors, cultivators or other persons under rule 14-A "

(h) In Form E—

(i) For "rule 14" at the top of the form substitute "rule 14 A "

(ii) For the words "Fee—eight annas in stamps" substitute the words "Free of charge "

(iii) Alter the heading of the form to read—

"License to possess gunpowder, safety fuzes or other explosives required *bonâ fide* for blasting purposes "

(iv) Alter the sub-heading of the form within brackets to read—

"(Granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police, and elsewhere by the District Magistrate If gunpowder and fuses only are to be possessed, the license may be granted by any Magistrate of the 1st class or by a Magistrate of the 2nd class specially authorised by the District Magistrate in this behalf)"

(v) In column 4 delete the word "and" after the word "gunpowder" and insert the words "and 10 lbs of other explosives" after the word "fuses "

(vi) In condition 2 substitute the words "a distance of 50 yards" for the words "the prescribed distances" and eliminate the footnote

(vii) In the proviso to condition 2 omit the word "and" after the word "gunpowder" and insert the words "and 10 lbs of other explosives" after the word "fuzes", also substitute the word "explosives" for the word "explosive "

(viii) Add the following as condition 5, and renumber the existing condition 5 as condition 6 —

'5 All explosives, other than gunpowder and safety fuzes, exceeding one pound in quantity shall be kept in a substantial case, bag, canister or other receptacle made and closed so as to prevent the explosive from escaping "

(ix) Insert the following on the back of the Form —

"ENDORSEMENT FOR TRANSPORT OF GUNPOWDER, FUZES OR OTHER EXPLOSIVES

(SEE RULE 8-A-VIII OF THE RULES FOR THE TRANSPORT AND IMPORTATION OF EXPLOSIVES PUBLISHED WITH THE NOTIFICATION OF THE GOVERNMENT OF INDIA IN THE DEPARTMENT OF COMMERCE AND INDUSTRY, No. 4555-4, DATED THE 31ST MAY 1907)

(*To be made by the licensing authority or by a Magistrate*)

The holder of this license is permitted to transport explosives according to the entries made below and subject to the undermentioned conditions —

Quantity of explosives to be transported	Place of despatch	Route	Destination	Mode of transit	Time during which transport must be completed	Signature of Magistrate and date

Conditions as to transport

1 The license in Form E becomes void, if the time occupied in transit exceeds the period specified, or if the consignment breaks bulk before reaching the place of destination, or if the articles are taken by any other route than that specified in the Endorsement

2 The contents of each package in transit must be described in legible characters on the outside of such package

3 Where transport takes place by cart, the person in charge of such cart shall not smoke, nor permit smoking on or dangerously near the same

4 Notwithstanding any endorsement on the license made by a Magistrate authorising the licensee to transport gunpowder, fuzes or other explosives, the total quantity of gunpowder, fuzes or other explosives that may be possessed, whether in transit or otherwise, shall not at the same time exceed the quantity for which the license is valid "

(i) In Form F add the following as condition 8 —

"8 All losses or thefts shall be reported without delay to the nearest police station "

(j) In Form J add the following as conditions 15 and 16 —

"15 The licensee shall, at his own expense, provide for the safe custody of the magazine, a guard which shall be of such strength as the District Magistrate may consider to be sufficient "

"16 All losses or thefts shall be reported without delay to the nearest police station "

II —Rules to regulate the transport and importation of explosives, issued with this Department Notification No 4555-4, dated the 31st May 1907

(a) Below the heading "Transport" add the following as rules 8-A and 8-B —

"8-A (1) Explosives required for blasting purposes shall not be transported by holders of licenses granted in Form F, Form J, or Form K, contained in the Schedule to the Rules for the manufacture, possession and sale of explosives published with the Notification of the Government of India, in the Department of Commerce and Industry, No 9045-8, dated the 29th November 1906, except under and in accordance with the conditions of a license to transport the same

Licenses for transport

(2) The following general rules shall be observed with respect to the grant of such licenses —

I Any such person may be granted a license for the general transport of explosives required for blasting purposes for any term not exceeding one year The license shall be issued free of charge and shall be in Form II appended to these rules

II A license under Rule I shall be granted in a Presidency town or its suburbs or in Rangoon by the Commissioner of Police, and in any other place by the Magistrate of the District.

No such license, having effect beyond the local limits of the authority of the officer granting it, shall be granted for the transport of such explosives—

(a) to any Native State in India, without the consent of the Political Agent for such State,

(b) to any Presidency town or its suburbs or Rangoon, without the consent of the Commissioner of Police, or

(c) to any other place in British India, without the consent of the Magistrate of the District

III Every person who wishes to obtain a license under Rule I shall apply in writing to the authority empowered to grant such license, and shall furnish particulars as to the place from which, and the place or places to which, he desires to transport explosives.

Where the grant of the license requires the consent of some other authority specified in Rule II, the application shall state whether such consent has been obtained, and if so, shall be supported by evidence thereof

IV When the place or places to which explosives are to be transported are outside the local limits of the authority of the officer granting the license, a copy of the license shall be forthwith sent—

(a) when the transport of explosives is authorized to a Presidency town or to Rangoon, to the Commissioner of Police,

(b) when the transport of explosives is authorized to any other place, to the Magistrate of the District in which such place is situated

V The license shall entitle the licensee to issue passes for the transport of explosives required for blasting purposes from the place from which the explosives are to be transported as entered in the license, to any place or places to which the explosives may be transported as entered in the license, subject to the conditions mentioned in the license

VI The pass issued under Rule V shall accompany each consignment of explosives transported

In the case of explosives transported by rail, the pass shall be attached to the way-bill or invoice, as the case may be

VII A copy of every pass issued under Rule V shall be forthwith sent to the licensing authority, and in cases where the explosives are being transported to a place beyond the local limits of the authority of the officer who has granted the license, to the Magistrate of the District in which such place is situated, or if such place be in a Presidency town or Rangoon, to the Commissioner of Police

VIII The holder of a license in Form E of the rules for the possession of explosives shall not be required to take out a separate license for the transport of gunpowder, fuzes or other explosives covered by such license He shall on each occasion when he transports gunpowder, fuzes or other explosives present the license in Form E to the licensing authority or to the nearest Magistrate, who shall endorse thereon particulars as to—

(1) the quantity of gunpowder, fuzes or other explosives to be transported,
(2) the place of despatch,
(3) route,
(4) destination,
(5) mode of transit, and
(6) the time during which transport must be completed,

and shall attach his signature to the same"

"8-B Whoever transports an explosive required for blasting purposes in contravention of the foregoing rules or commits a breach of any condition subject to which such transport is permitted shall be punishable with a fine which may extend to one thousand rupees"

Penalty

No 1930M —The 10th December 1908 —Whereas a notification No 1526M, dated the 10th September 1908, was published at page 133, Part IB of the *Calcutta Gazette* of the 16th September 1908, declaring the intention of the Lieutenant-Governor to extend the provisions of section 262A of the Bengal Municipal Act, III of 1884, to the Bhabua Municipality, in the district of Shahabad, and whereas no objection has been raised to the proposal within one month from the date of the publication of the above notification within the Municipality, it is hereby notified for general information that in the exercise of the power vested in the Local Government by section 221 of the Act, and in accordance with the recommendation of the Commissioners of the Bhabua Municipality, made at a meeting, the Lieutenant-Governor sanctions the extension of the above provisions of the Municipal Act to the said Municipality

Nadia

No 1949M —The 11th December 1908 —It is hereby notified for general information that the Lieutenant-Governor intends, in exercise of the power vested in him by section 221 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and in compliance with an application made under that section by the Commissioners of the Ranaghat Municipality, in the district of Nadia, to extend the provisions of sections 243 to 248 and 267 of the said Act to the said Municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the Municipality

Champaran.

No 1953M —The 11th December 1908 —It is hereby notified that the Commissioners of the Motihari Municipality, in the district of Champaran, having at a meeting requested the Local Government, under sections 23 and 27 of the Bengal Municipal Act, III of 1884, to appoint a Chairman, the Lieutenant-Governor is pleased to appoint Mr J H E Garrett, C S I, to be their Chairman, *vice* Mr R S Greenshields, I C.S, resigned

24-Parganas

No. 1963M —The 10th December 1908 —Whereas a notification No 1391M, dated the 24th August 1908, was published at pages 126 and 127, Part IB, of the *Calcutta Gazette* of the 26th idem, declaring the intention of the Lieutenant-Governor to make certain rules and to impose certain conditions, subject to which the Commissioners of the Maniktala Municipality may allow the owners and occupiers of masonry buildings having proper drainage outlets connected with the Municipal drain, paying a water rate, to lay down communication pipes from the service pipes of the Commissioners for the purpose of leading water to their premises for domestic purposes only, and whereas no valid objection has been raised to those rules except to rule 10 within

one month from the publication of the above notification within the Municipality, it is hereby notified for general information that in the exercise of the power vested in the Local Government by section 290 of the Bengal Municipal Act, III of 1884, the Lieutenant-Governor sanctions the said rules and conditions, rule 10 being modified, as shown below —

Connexion to be granted ordinarily to masonry buildings for domestic purposes

1 So long as the supply of water permits, the Commissioners will allow the owners and occupiers of masonry buildings having proper drainage outlets connected with the municipal drain, paying the water rate imposed under the provisions of Part VII of the Bengal Municipal Act, to lay down communication pipes at their own expense from the service pipes of the Commissioners, for bringing a supply of water into their houses for domestic purposes only

Special sanction of Commissioners in meeting required for connexion to holdings other than masonry buildings

The Commissioners in meeting may as a special case grant house connexion to any holding which is not a masonry building

Application to be made in printed form

2 The owner or occupier of any building requiring a supply of filtered water or any addition or alteration to the existing water-supply, must apply for the same in a printed form to be supplied to him free of cost at the municipal office

Separate connexion for each holding

3 Each holding shall have a separate connexion, and extensions from the communication pipe of one holding to another shall not be allowed

Work to be done by a licensed plumber connexion in presence of a municipal officer

4 No new connexion or any addition or alteration to the existing water-supply shall be allowed unless it is executed by a licensed plumber of this Municipality, who shall be deemed as an officer hereof, and whose name shall be specified in the application under rule 2, and no connexion with the municipal service pipe shall be permitted to be made otherwise than in the presence of the licensed plumber in charge of the work, or of some responsible and qualified person acting on his behalf and of a Municipal officer authorised in that behalf

Parts of house connexions.

5 A house connexion shall comprise the following parts —

(a) The brass or gun-metal ferrule inserted in the main supply pipe
(b) The galvanized iron communication pipe from the ferrule to the meter
(c) The stop-cock and its surface box
(d) The meter
(e) The service pipes from the stop-cock to the taps
(f) The taps

Fittings to be stamped and tested.

6 All the fittings enumerated in the preceding paragraph shall be exact duplicates of standard samples kept in the office of the Commissioners and approved by them in meeting All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed Any fittings presented for approval shall, if considered satisfactory by the Chairman, be stamped and samples thereof be purchased and placed among the standard fittings No fitting which is stamped with the name of an approved maker shall be tested

Ferrule

7 The size of the ferrule will be decided by the Commissioners, but its diameter shall not differ from that of the communication pipe by more than ½ inch

Pipes.

8 The diameter of the communication pipe, will be determined with regard to the average pressure in the main supply pipe at the standpost nearest the house for which a connexion is required and to the quantity of water to be supplied according to the provisions of section 295; the diameter of the pipe shall be such that it will be competent to deliver half the daily supply in six hours The house connexion, when fitted in position, must be capable of standing a pressure of 100 feet, and no water shall be supplied until this test has been applied by the Commissioners.

Stop cock

9 On every communication pipe a brass or gun metal stop cock having the same waterway as the pipe shall be placed as near as practicable to the point where the said pipe enters the house or premises to be supplied It shall be provided with a surface cover-box resting on brick-work foundations to indicate its situation and shall be so designed that it can be locked, and the key of it shall remain under the control of the Chairman. The stop-cock shall be capable of adjustment so that the supply to the house may be regulated by it

Meter

10 The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined, and no meter shall be fixed under ground unless in a brick well or chamber No meter shall be disconnected from the service pipe, or in any way interfered with except with the permission of the Chairman or officer representing him. The Commissioners shall depute some authorised person to read every meter not less than once a quarter, and shall give notice to the occupier at least 24 hours before the reading is recorded. If the quantity

of water consumed in any quarter exceeds that to which the occupier is entitled, written notice to that effect shall be served upon him

No rate-payer who will take a house connection through an one-eighth of an inch ferrule shall be required to fix a meter But if the Commissioners have reason to suspect a wastage of water, a meter shall be fixed at the cost of the Commissioners

11 Every tap shall be of the same size as the pipe to which it is attached and shall be of brass and of the pattern known as screw-down Every tap shall be at least 3 feet high from the road level The number of taps in a house or holding shall be fixed according to the annual valuation of the premises as follows —

PART V

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Governor General of India in Council received the assent of the Governor General on the 11th December 1908, and is hereby promulgated for general information —

ACT NO XIV OF 1908

An Act to provide for the more speedy trial of certain offences and for the prohibition of associations dangerous to the public peace

WHEREAS it is expedient to provide for the more speedy trial of certain offences, and for the prohibition of associations dangerous to the public peace, It is hereby enacted as follows —

Short title and extent

1 (*1*) This Act may be called the Indian Criminal Law Amendment Act, 1908

(*2*) It extends to the Provinces of Bengal and of Eastern Bengal and Assam, but the Governor General in Council may, at any time, by notification in the Gazette of India, extend the whole or any Part thereof to any other Province

(*3*) When extending Part I to any Province under sub-section (*2*) the Governor General in Council may declare the operation of the provisions of that Part relating to the constitution of the Special Bench to be subject to such modifications as may in the opinion of the Governor General in Council be necessary to adapt those provisions to the circumstances of that Province.

PART I

SPECIAL PROCEDURE

Application of Part

2 (*1*) Where a Magistrate has taken cognizance of any offence specified in the Schedule, and it appears to the Governor General in Council or to the Local Government that in the interests of peace and good order the provisions of this Part should be made to apply to proceedings in respect of such offence, the Governor General in Council, or the Local Government, with the previous sanction of the Governor General in Council, may make an order in writing to that effect, and may by such order direct that the provisions of this Part shall apply to such proceedings

(*2*) No order shall be made under sub section (*1*) in any case in which an order of commitment to the High Court or Court of Session has been made under the Code of Criminal Procedure, 1898, but, save as aforesaid an order may be made in respect of any offence whether committed before or after the commencement of this Act, or, in the case of a Province to which this Part is extended under section 1, before or after such extension

Inquiry by Magistrate

3 (*1*) On receipt of an order under section 2 the Magistrate who has taken cognizance of the offence, or any other Magistrate to whom the case has been transferred, shall proceed to enquire whether the evidence offered upon the part of the prosecution is sufficient to put the accused upon his trial for an offence specified in the Schedule, and shall for that purpose record on oath the evidence of all such persons as

may be produced in support of the prosecution, and may record any statement of the accused if voluntarily tendered by him

(2) Where before the commencement of proceedings under this Act the evidence of a witness has been recorded under the Code of Criminal Procedure, 1898, in the course of an inquiry into the same offence as that to which such proceedings relate, such evidence may be treated for the purposes of this Act as if it had been taken under sub section (1)

V of 1898.

Inquiry to be *ex parte*

4 The accused shall not be present during an inquiry under section 3, sub section (1), unless the Magistrate so directs, nor shall he be represented by a pleader during any such inquiry, nor shall any person have any right of access to the Court of the Magistrate while he is holding such inquiry

When accused person to be discharged

5 When the evidence referred to in section 3 has been taken, the Magistrate shall, if he finds that it is not sufficient to put the accused upon his trial for an offence specified in the Schedule, record his reasons and discharge the accused, unless it appears to the Magistrate that the accused should be tried or committed for trial under the provisions of the Code of Criminal Procedure, 1898, for any other offence, in which case the Magistrate shall proceed accordingly

Power to send accused for trial

6 When upon such evidence being taken the Magistrate is satisfied that it is sufficient to put the accused upon his trial for an offence specified in the Schedule, he shall—

(a) frame a charge under his hand declaring with what offence the accused is charged,

(b) make an order directing that the accused be sent to the High Court for trial, and

(c) cause the accused to be supplied with a copy of the order and of the charge and of the evidence taken under section 3

Joinder of charges

7 In framing any charge under section 6 the Magistrate may also frame a charge for any offence not specified in the Schedule with which the accused may be charged at the same trial, and the procedure of this Act shall apply to any such charge

Charge, etc., to be forwarded to High Court.

8 When an order for trial has been made under section 6, the Magistrate shall send the order together with the charge, the record of inquiry and anything which is to be produced in evidence to the Clerk of the Crown or other officer appointed in this behalf by the High Court

Power to summon supplementary witnesses.

9 (1) The Magistrate may, if he thinks fit, summon and examine supplementary witnesses after the order for trial and before the commencement of the trial.

(2) When the Magistrate examines witnesses under sub-section (1) he shall forthwith cause the accused to be supplied with a copy of the evidence of such witnesses.

Witnesses for defence

10 The accused may at any time before his trial give to the Clerk of the Crown or other officer as aforesaid a list of the persons whom he wishes to be summoned to give evidence on his trial.

Procedure in High Court

11 (1) All persons sent for trial to the High Court under this Act shall be tried by a Special Bench of the Court composed of three Judges

(2) No trial before the Special Bench shall be by jury

(3) Where there is a difference of opinion among the Judges forming the Special Bench, the decision shall be in accordance with the opinion of the majority of those Judges

Bail

12 No person who has been remanded to custody in the course of proceedings under this Act shall be released on bail under the provisions of section 497 of the Code of Criminal Procedure, 1898, if there appear to be sufficient grounds for further inquiry into the guilt of such person

V of 1898.

Special rule of evidence

13 Notwithstanding anything contained in section 33 of the Indian Evidence Act, 1872, the evidence of any witness taken by a Magistrate in proceedings to which this Part applies shall be treated as evidence before the High Court if the witness is dead or cannot be produced and if the High Court has reason to believe that his death or absence has been caused in the interests of the accused

I of 1872.

Procedure

14 (1) The provisions of the Code of Criminal Procedure, 1898, shall not apply to proceedings taken under this Part in so far as they are inconsistent with the special procedure prescribed in this Part

V of 1898.

(2) When holding a trial under section 11, the Special Bench shall apply the provisions of Chapter XXIII of the said Code with such modifications as may appear necessary to adapt those provisions to the case of a trial before the High Court without a jury

PART II

UNLAWFUL ASSOCIATIONS

Definitions

15 In this Part —

(1) "association" means any combination or body of persons, whether the same be known by any distinctive name or not, and

(2) "unlawful association" means an association—

(a) which encourages or aids persons to commit acts of violence or intimidation or of which the members habitually commit such acts, or

(b) which has been declared to be unlawful by the Governor General in Council under the powers hereby conferred.

Power to declare association unlawful.

16 If the Governor General in Council is of opinion that any association interferes or has for its object interference with the administration of the law or with the maintenance of law and order, or that it constitutes a danger to the public peace, the Governor General in Council may, by notification in the official Gazette, declare such association to be unlawful.

17 (1) Whoever is a member of an unlawful association, or takes part in meetings of any such association, or contributes or receives or solicits any contribution for the purpose of any such association, or in any way assists the operations of any such association, shall be punished with imprisonment for a term which may extend to six months, or with fine, or with both

Penalties

(2) Whoever manages or assists in the management of an unlawful association, or promotes or assists in promoting a meeting of any such association, or of any members thereof as such members, shall be punished with imprisonment for a term which may extend to three years, or with fine, or with both

18 An association shall not be deemed to have ceased to exist by reason only of any formal act of dissolution or change of title, but shall be deemed to continue so long as any actual combination for the purposes of such association continues between any members thereof

Continuance of association

---

STATEMENT OF OBJECTS AND REASONS

Recent events have demonstrated that it is expedient to provide for the more speedy trial of anarchical offences, and for the suppression of associations dangerous to the publi peace This Bill has been prepared to meet these objects Part I provides for the trial of certain offences by a Bench of three Judges of the High Court In the procedure there is no formal commitment, but the case is prepared for trial by an *ex-parte* inquiry before a magistrate, and the trial is without jury Two special provisions are made applicable to cases to which the Bill will apply The first is that bail shall be refused so long as there is reasonable ground for further inquiry into the guilt of the accused The second is that the evidence of witnesses who have been examined by the magistrate may be admitted at the trial if the witness is dead or cannot be produced, and the High Court has reason to believe that his death or absence vas caused in the interests of the accused

Part II provides for the suppression of unlawful associations Such persons as are members of or in any way assist an association which encourages or aids the commitment of acts of violence or intimidation, or of which the members habitually commit such acts, are made liable to punishment, and a severer punishment is provided for persons managing or promoting such associations Further the Governor General in Council is empowered to declare certain associations to be unlawful, and the same penalties are provided for persons who after this declaration maintain their connection with them

The Bill extends in the first instance to the provinces of Bengal and Eastern Bengal and Assam, and the Governor General in Council is empowered to extend it to other provinces

Characteristics of Lights—Alterations in Definitions

No 473 (*third publication*) —The following particulars, etc, relative to the above, issued by the British Admiralty (No 1706 of 1908), are republished —

Subject —The large increase in late years in the variety of lights, exhibited by the different maritime nations, made possible by the more extensive use of lights which alter in colour, has necessitated alterations in the definitions of the characteristics of lights in the Admiralty publications, and also in their designation on the Admiralty charts, as undermentioned

These alterations will be embodied in the Admiralty Lists of Lights for 1909, but some time must necessarily elapse before all the charts can be amended.

Alteration —In Admiralty List of Lights, parts I to VIII, Introductory Remarks, cancel paragraph commencing "Characteristics," and paragraph commencing "Explanation", also cancel note at foot of page, and substitute —

Characteristics —Lights may either show a continuous steady light, or be varied by the introduction of flashes, eclipses, &c They are divided generally into two classes, as shown below in parallel columns, viz —

(1) Lights whose colour does not alter throughout the entire system of changes,

(2) Lights which alter in colour,

both classes having the same characteristic phases

Lights whose Colour does not alter	Characteristic Phases	Lights which alter in Colour
F Fixed	A continuous steady light	Alt Alternating
* Fl Flashing	(*a*) Showing single flashes at regular intervals, the duration of light being always less than that of darkness (*b*) A steady light with, at regular intervals, sudden and total eclipses, the duration of light being always less than that of darkness	* Alt Fl Alternating flashing
* Gp Fl Group flashing	Showing groups of two or more flashes at regular intervals	* Alt Gp Fl Alternating group flashing
* Occ Occulting	A steady light with, at regular intervals, sudden and total eclipses, the duration of darkness being always equal to or less than that of light	* Alt Occ Alternating occulting
* Gp Occ Group occulting	A steady light with, at regular intervals, groups of two or more sudden eclipses	* Alt Gp Occ Alternating group occulting
F Fl Fixed and flashing	A fixed light varied, at regular intervals, by single flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Fl Alternating fixed and flashing
F Gp Fl Fixed and Group flashing	A fixed light, varied at regular intervals, by groups of two or more flashes of relatively greater brilliancy, which may or may not be preceded and followed by eclipses	Alt F Gp Fl Alternating fixed and group flashing
*Rev Revolving	Light gradually increasing to full brilliancy, then decreasing to eclipse	* Alt Rev Alternating revolving

(U) after the name of a light indicates that it is unwatched

Explanation —Period is the interval between successive commencements of the same phase

In the case of lights which alter in colour, there are, strictly speaking, two periods, viz —one of phase, and one of alternation of colour That shown in the column headed "Period" is the first of these Details of the second are set forth in the column headed "Remarks."

The bearings are magnetic, &c, &c

* * * * * * *

* Note —For hydrographic purposes a light is classed as flashing or occulting solely according to the relative duration of light and darkness and without any reference to the apparatus employed, At short distances and in clear weather, flashing and revolving lights may show a faint continuous light.

RESOLUTION ON THE ANNUAL PROGRESS REPORT OF FOREST ADMINISTRATION IN THE PROVINCE OF BENGAL FOR THE YEAR 1907-08.

REVENUE DEPARTMENT—FORESTS

Calcutta, the 11th December 1908

RESOLUTION—No 5110

READ—

The Annual Progress Report of Forest Administration in the Province of Bengal for the year 1907 08

Read also—

The corresponding report for the previous year and the Resolution of Government thereon

There was no change of importance in the area of the Reserved and Protected Forests in the Province, nor was any important addition or alteration in the forest rules brought into effect during the year

Including Chaibassa, which is practically a subdivision of Singhbhum, the circle is divided into twelve divisional charges. The number of appointments which can be filled by Imperial Officers in this Circle and the Andamans is ten The number of Imperial Officers available at the end of the years including two senior officers on leave and one in the Andamans, was only nine Owing to the shortage of senior officers, it has again to be noticed that changes in important charges were more frequent than was consistent with efficient

management, and junior officers were often in charge of important divisions The weakness of the staff of Imperial Officers has also resulted in throwing an undue burden on the shoulders of the Provincial Service The question of the reorganization of this service is now under the consideration of Government The reorganization of the subordinate staff was sanctioned in the beginning of the year, and, it is hoped, will lead to a continued improvement in the standard of work It is satisfactory to notice that the school for Foresters and Deputy Rangers at Kurseong, which was started in 1907, has been a distinct success

2 *Forest Surveys and Working Plans*—The survey of the Sundarbans Reserved Forests by the Provincial Survey Department, which was commenced in the previous year, was completed during the year under review The total cost of this survey has amounted to Rs 1,86,487, and is debitable to the Forest Department Other local surveys were of trifling importance Considerable progress has been made in the preparation of Working plans The Working-plan for the Angul Reserved Forests, prepared by Mr T G Poocck, late Divisional Forest Officer, was completed and approved by Government after the close of the year The Working plan for the Singalila Forest in the Darjeeling Division was prepared and completed by Mr. Trafford, Divisional Forest Officer The revised plan for the Reserved Forests of the Tista Division by the late Mr Tinne was also sanctioned during the year The only plan which will lapse within the next three years is that for the Sundarbans Forests, and the revision of this is receiving full attention

3 *Communications, etc*—The expenditure on the construction of roads and bridges amounted to a little over Rs 40,000 The most important work carried out was the construction of a complete net-work of cart roads in the Singhbhum Division, where 41 miles of road were added Nearly Rs 30,000 were spent on buildings Much has undoubtedly been done to open out inaccessible areas, and the provision of suitable housing for the establishment has received due attention

4 *Protection of Forests Breaches of Forest Law*—The total number of recorded offences against the Forest Laws was 2,281, which is considerably below the average of the last few years, but slightly in excess of the figures for 1906-07 The excess is more than covered by the increase in the number of fire cases due to the unfavourable character of the season There is good reason to suppose that the present policy of prosecuting or exacting compensation in all cases of a relatively serious nature is producing a good effect

5 *Protection from fire*—The season was the most unfavourable which has been experienced in the last ten years The early cessation of the rains in 1907 and the absence of spring showers rendered the work of fire protection exceptionally difficult As is nearly always the case in bad seasons, the Singhbhum Division suffered most In this division nearly 45,000 acres, or 9 5 per cent of the total area under protection, were burnt In other divisions 15,000 acres were burnt, Sambalpur accounting for nearly half There is reason to suppose that some of the fires in Singhbhum were the work of an incendiary, but in no case in the province was any proof of incendiarism obtained In a dry season it is impossible to avoid the frequent outbreak of fires Aboriginal tribes subsist for a large part of every year, and especially in years of scarcity, on the roots and fruits, seeds and honey, which the forests can supply It is easy to appreciate the difficulties which the work of fire-protection under such circumstances involves Considering the character of the season, the Lieutenant Governor is of opinion that the Forest Department is to be congratulated on the comparative smallness of the area actually burnt This was a little short of 60,000 acres, whereas in 1898—the only season in recent years which was equally unfavourable—the area burnt in the Singhbhum Division alone amounted to nearly 280,000 acres His Honour is glad to observe that the arrangements made in recent years for joint action in respect of fire conservancy between the Forest Department and Rulers or Managers of neighbouring Native States have worked very well, at any rate so far as the Singhbhum and Angul Divisions are concerned This cannot, however, be said of the Puri Division, as in most of the States bordering on the Puri Reserves forest fires got completely out of control.

6 *Protection from cattle and against injuries from other causes*—The proportion of Reserved Forests closed against grazing was slightly increased by the closure of certain areas in the Sambalpur Division. Practically the whole of the Protected Forests are open to grazing It is very difficult to enforce restrictions on grazing in Protected Forests. Grazing, at least when the head of cattle is large in proportion to area, is the greatest enemy of forest reproduction Yet the maintenance of forest growth is essential not merely for the provision of forest produce to the villagers, but also in order to maintain the grazing lands in good condition and to save them from degenerating into barren wastes The problem of maintaining the supply of forest produce without unduly restricting the much valued grazing rights is one of the most difficult with which the Conservator is confronted and requires his earnest attention

The Palamau Division suffered severely from frost Considerable damage was done in the Tista Division by wild elephants Most of the transplants put down in that Division were as usual destroyed by these animals It is possible, as the Conservator suggests, that the elephants are not worth the protection they receive from Government The Conservator should further consider this question and, if necessary, address Government separately upon it Man eating tigers in the Sundarbans forests were responsible for no less than 120 lives, and an indirect loss of revenue which the Conservator roughly estimates at Rs 25,000 Various devices have been adopted for the destruction of these pests, and unremitting efforts must be continued until they are got rid of

7 *Financial*—From a commercial point of view the results of the year's working were fairly satisfactory The total revenue rose to Rs 11,66,700 The total expenditure was Rs 7,10,309 The net revenue was less by Rs 30,000 than that of the previous year, but above the average of the previous five years The result is more satisfactory than it looks A considerable portion of the expenditure,—for instance, Rs 1,33,000 on the Sundarbans surveys, as well as other smaller sums expended on other objects,—consisted of capital expenditure of a non recurring kind Taking this into consideration, it may be said that the increase of 6·6 per cent in the revenue was effected without any appreciable increase in expenditure Had it not been for the depression in the timber trade, the revenue would have been appreciably higher than it was All the divisions except Kurseong, Chaibassa, Sambalpur and Puri showed an increased revenue or an increased surplus, and no division except Chaibassa, which was created to secure better management of the Protected Forests in Singhbhum, was worked at a loss

8 The subject of forest management is not, however, one solely or perhaps even mainly of revenue. The important effects of the conservation of forests on climatic conditions are now generally accepted The relation between forest denudation and atmospheric and sub soil moisture and the possible ulterior effects of changed conditions in producing sudden floods and severe droughts more and more urgently call for consideration There is increasing reason to connect the high floods in the rivers which rise in the Chota Nagpur plateau with the denudation of the hills of that country and of Orissa The whole question is receiving the careful attention of Government

9 The Lieutenant Governor notices with pleasure the Conservator's appreciation of the good work done by the officers of the Imperial Forest Service and by the Provincial Forest staff The department has recently suffered a severe loss by the accidental death of Mr Tinne, a young officer of much promise The shortness of the staff has throughout been a handicap to the department, but the results achieved are in every way creditable. His Honour's thanks are due to Mr McIntire for his capable and energetic administration of the department and for his interesting report

By order of the Lieutenant-Governor of Bengal,

F W DUKE,

Offg Chief Secy to the Govt of Bengal

CALCUTTA,

The 11th December 1908

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR NOVEMBER 1908

Character of the rainfall—The month was practically rainless Some irregularly distributed showers fell in parts of the Presidency Division and in Howrah, Darjeeling, the Sonthal Parganas and Puri The usual rainfall statement for the month is appended

II *Progress of Agricultural operations*—Harvesting of the early crop of *aman* paddy began early and continued throughout the month Sugarcane pressing was in progress in Bihar and Orissa The sowing of *rabi* crops was seriously hindered in several districts for want of sufficient moisture

III *State of standing crops*—Sugarcane is doing well Early sown *rabi* crops suffered in several districts, especially in North Bihar, from want of rain *Aman* paddy suffered much on high lands in many districts of Lower Bengal and Bihar In large areas in North Bihar the crop has almost failed owing to the absence of rain since the second week of October and the crop has been cut for fodder

IV *Prospects and probable outturn of the harvests*—In the preliminary forecast of the winter rice crop the outturn of *aman* paddy was estimated at 80 per cent, but owing to drought towards the end of the season, the prospects of the crop have deteriorated in many districts and in parts of North Bihar the damage is serious. The outturn of the crop according to estimates now received from District Officers is 72 per cent The harvesting of *bhadoi* crops has been completed They also suffered much from the cessation of rain early in October The outturn of the crops is estimated at 65 per cent as against 68 per cent estimated in the preliminary forecast issued in September last

V *Damage to crops*—Considerable damage was done to *rabi* crops by insect-pests in Bhagalpur and also in Jessore, Patna, Gaya and Shahabad

VI *Condition of Agricultural stock*—Cattle are in fair condition But disease has been reported from parts of Midnapore, Jessore, Darbhanga, Monghyr and from the Chota Nagpur Division, Singhbhum excepted

VII *Failure of pasturage and fodder*—The fodder supply has not been inadequate It is only in parts of the Sonthal Parganas that insufficiency has been felt The water supply was apparently sufficient throughout the month but complaints of a short supply in the future, unless rain falls soon, have come from North Bihar

VIII *Prices of food grains*—Prices of food-grains continued to rule high The price of common rice remained fairly stationary, but towards the end of the month it showed a downward tendency

IX *Condition of the labouring and agricultural population*—Prospects are generally good in Orissa and Chota Nagpur, scarcity, however, still exists in the flood-affected tracts of Balasore Gratuitous relief was given in Cuttack, Balasore and Puri In Nadia scarcity is apprehended unless good rain be received soon The situation in North Bihar is causing anxiety owing to the failure of the paddy crop There is very little demand for labour, and high prices are affecting the labouring classes seriously The number in Darbhanga aided by gratuitous relief and on test works shows a tendency to increase

SUMMARY OF THE RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE MONTH OF NOVEMBER 1908

During the month under report there was practically no rain throughout the Province. A few scattered showers fell in the districts of Howrah, 24 Parganas, Calcutta, Nadia Jessore, Khulna, Darjeeling, the Sonthal Parganas and Puri There was no rain in the remaining districts of the Province In all the divisions of the Province the rainfall was much below the normal

From the abstract tables appended it will be seen that both South-West Bengal and Bihar received only 3 per cent of the normal fall

The total rainfall from January to November was 93 per cent in South-West Bengal, 58 per cent in Bihar, 87 per cent in Orissa and 84 per cent in Chota Nagpur.

The following table compares the rainfall in the four divisions during the month of November with the normal fall, the actual being given as a percentage of the normal The table also shows the actual falls for each of the previous months of the year expressed in the same way, and the last column of the table shows the total rainfall of the past eleven months of the year 1908 —

METEOROLOGICAL DIVISIONS	January	February	March	April	May	June	July	August.	September	October	November	Actual rainfall of first eleven months of 1908 expressed, as a percentage of the normal fall for the period

SUMMARY OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL AND IN EASTERN BENGAL AND ASSAM FOR THE MONTH OF SEPTEMBER 1908

WEATHER in the Bay was quieter than usual, since with the exception of the storm of the 21st to 26th the few depressions that formed failed to intensify into cyclonic disturbances of any importance

Two depressions formed during the first half of the month The first depression appeared off the Coromandel coast on the 7th, but it slowly drifted to the north without causing disturbed weather The second depression formed in the Bay on the 12th and disappeared on the 15th Rainfall due to the Bay current was abundant in Burma and Eastern Bengal and Assam and light in the Province of Bengal, excluding Bihar where weather was dry During the fourth week the weather was determined by a storm which appears to have formed over the Andaman sea on the 19th The storm travelled along a westerly track to the coast of the Circars which it crossed near Cocanada between 2 P M and 3 P M on the 26th It occasioned heavy rain on the north Madras coast, and was the cause of heavy rain and of destructive floods in Hyderabad and its neighbourhood

Summary of temperature—The mean temperature for the month was generally slightly above the normal except in Assam where it was in slight defect In Bihar and Eastern Bengal (North) the excess was over 1° and in Orissa it was normal The highest temperature recorded was 99 3° which was reported from Dehri, while the lowest was 68 2° reported from Sibsagar

The following table gives the summary of the temperature of each of the seven meteorological divisions of the Provinces of Bengal and of Eastern Bengal and Assam for the month of September 1908 —

Summary of rainfall—The rainfall work of the province has been placed in the hands of the Director of Agriculture, Bengal, and the usual data regarding the actual and normal rainfall during the month are published by that officer A short table, however, is attached to this report, giving the rainfall recorded during the month at the head-quarters of the various districts of the Province

During the month rainfall was below normal over the greater part of the two Provinces The defect averaged 38 per cent in Bihar, 31 per cent in Orissa, 27 per cent in Bengal and 22 per cent in Chota Nagpur The rainfall recorded at Cooch Behar and Mymensingh was, however, in considerable excess, the former registering 13 inches above the normal and the latter 3 inches

Actual and average rainfall and departure from normal for the month of September 1908

The mean pressure, temperature, etc, are deduced from the traces of the Kundsen's Barograph and from eye observations

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected to those of the standard, Newman's No 86, formerly at the Surveyor-General's Office

The hygrometric elements are obtained from Tables III, IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground The rainfall reported on any day is for 24 hours preceding 8 A M of that day

No 5425—L R —The 28th December 1908 —In exercise of the power conferred by clause (v) of sub-section (2) of section 264 of the Chota Nagpur Tenancy Act, 1908, the Lieutenant Governor is pleased to make the following rules prescribing the manner in which the possession of land shall be given under section 73, sub section (3), of that Act —

Chota Nagpur

1 Whenever the Deputy Commissioner determines, under sub section (3) of section 73 of the Act, to restore an occupancy raiyat or a non-occupancy raiyat to possession of his land on being satisfied that the raiyat did not voluntarily abandon his holding, he shall issue a warrant to the Head Bailiff of his Court, directing him to cause possession of the holding to be given to the raiyat

2 The officer executing the warrant shall proclaim the substance thereof by beat of drum—

(*a*) in the village in which the land is situate, and also in some conspicuous place on the land itself, and

(*b*) when the land is situate in more than one village, then in each such village and in some conspicuous place on the land in each such village separately

3 The said officer shall also affix a copy of the warrant to a tree standing in a conspicuous part of the land, or, if there is no suitable tree, then to a pole firmly fixed in the ground in a conspicuous place and standing not less than eight feet above the ground

4 The said officer shall, before giving possession, notify the substance of the warrant—

(*a*) to the landlord whom it is intended to dispossess, if he is residing in the village or can be found without unreasonable delay, or

(*b*) if there be an agent of the landlord in the village, then to such agent

5 Immediately after giving possession, the said officer shall record, on the back of the warrant, the fact that he has given possession, and a description of the manner in which, and the persons in whose presence, possession was given

6 He shall read the said record to two or more respectable and independent persons of the village, and shall ask them to witness the delivery of possession and to sign the record or affix their thumb-impressions to it, if correct One of these persons should, if possible, be the headman of the village

7 When possession is given of lands situate in different villages, the procedure prescribed by these rules shall be followed in each such village

8 The said record shall then be forwarded without delay to the Deputy Commissioner who issued the warrant

No. 5355Jur —The 22nd December 1908 —The Lieutenant-Governor is pleased to sanction the transfer of the undermentioned villages from the jurisdiction of thana Manteshwar, subdivision Kalna, to that of thana Katwa, subdivision Katwa, in the district of Burdwan, with effect from the 1st January 1909 —

T W RICHARDSON,

No 11462-11502—244, dated Calcutta, the 18th December 1908

RESOLUTION—By the Govt of India, Dept of Commerce and Industry

IN the Resolution of the Government of India, No 9870 9908—92, dated the 28th October 1908, certain proposals for the revision of the classification of inland telegrams and the rates at which they are transmitted, were published for criticism, and it was stated that any expressions of opinion which might be furnished by the Local Governments or by the public generally would be considered after the end of November The replies which have been received are generally favourable to the proposed changes, and the Government of India, after considering such suggestions as have been made for modifications in the scheme, have decided that the rates as originally published should be adhered to

2 With effect from the 1st January 1909, the classification of inland telegrams and the charges for their transmission will be as follows —

State and Private Telegrams

Class	Unit No of words	Unit rate	Each additional word	Address
		Rs A P	Rs A P	
Express	12	1 0 0	0 2 0	Charged for
Ordinary	12	0 6 0	0 0 6	Charged for

3 The rates for Press telegrams will remain unchanged, but the two classes will in future be styled "Express" and "Ordinary" instead of "Ordinary" and "Deferred" Press telegrams of the higher class will be transmitted in their turn with State and Private "Express" messages and will receive no special treatment "Ordinary" Press telegrams will, however, for the present continue to enjoy the priority which they receive under the existing classification, according to which, though classed as "Deferred," they are treated as "Ordinary" They will in future be transmitted out of their turn, after all "Express" telegrams, but before all "Ordinary" State or Private telegrams This concession must, however, be regarded as a temporary measure only It will be withdrawn as soon as the Government of India are satisfied that the recent traffic reforms have produced their full effect and that the speed of transmission of all telegrams is such as to render the special treatment of Press telegrams unnecessary

ORDER —Ordered that a copy of this Resolution be forwarded to all Local Governments and Administrations, to all Chambers of Commerce and Trades Associations, to all Departments of the Government of India, to the Director-General of Telegraphs and to the Director-General of the Post Office

Ordered, also, that a copy be published in the *Gazette of India*

The following are the conditions of sale —

1 The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export

2. The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for

which provision is made by clause 13 of these conditions of sale The bids must advance by Rs 5 at a time

3 The sale shall commence at the hour of 11 A M of the day fixed by previous notification, and shall not be continued after the hour of 5 P M, but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A M, and so on until the whole of the remaining lots are disposed of, or if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale

4 Each lot shall contain five chests

5 A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P M, in the after noon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P M, or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re sale as the Board of Revenue shall see fit, and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government

DEPOSIT

When the amount bid is less than Rs. 1,200 per chest Rs 200 per chest

On bids of Rs 1 200 and upwards but less than Rs 1 600 per chest, Rs 300 per chest

On bids of Rs 1 600 and upwards but less than Rs. 2 000 per chest, Rs 400 per chest

And so on Rs 100 being added to the deposit for every bid additional to the extent of Rs 400

6 The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not

7 The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3 30 P M of the fifth day following the day of sale, or 1-30 P.M, if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit

8 No tender of money, Bank of Bengal receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale, will be afterwards accepted Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re sale as provided for in clauses No 5 and No 6

9 The opium advertised for sale shall be paid for not later than by 3-30 P M of the fifteenth day from the day of sale, provided it does not fall on a Saturday, if it falls on a Saturday, the opium must be paid for by 1-30 P M, and, in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit, and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited

10 Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order, and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots or of a different number of lots or chests, whether more or less, than the number of lots or chests ordinarily required to be included in each certificate or order

11 No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale book; or his authorised agent The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order

12 The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal receipts, or Government securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions

13 With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs 5 at a time until a bid is obtained, and the first *boná fide* bidder for a lot, after it has been offered for sale in the mode here described, shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs 800 specified in the second of these conditions

14 The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty five

15 In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal

16 The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the office of the Board of Revenue —

No 1, Certificate of the opium advertised for sale,

No 2, Report of the examination of such opium

17 The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1907-08, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake An account of the weight of the drug, when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the office of the Board of Revenue

18 Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the office of the Board of Revenue But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug which may be preferred on reference to chests after the sale and delivery of the opium for shipment

FINAL FORECAST OF THE *BHADOI* CROPS OF BENGAL, 1908

THE following note is published for general information.

F W DUKE,
Offg Chief Secy to the Govt of Bengal.

The 24th December 1908

DEPARTMENT OF AGRICULTURE, BENGAL

FINAL FORECAST OF THE BHADOI CROPS OF BENGAL, 1908

[On an average of five years ending 1906 07 the area under autumn rice in the territory to which this forecast relates has represented some 6 0 per cent of the total area under this crop in British India.]

Character of the season.—In Orissa and Chota Nagpur, weather conditions were generally favourable In Lower Bengal, excepting Nadia and Murshidabad, a fair outturn is expected The crops have, however, suffered from

excessive rain in July as well as from the attacks of insect pests in most districts In Bihar, the season has been very unfavourable The want of rain during the monsoon season and the early cessation of rain thereafter affected the crops badly and a poor outturn is now anticipated The season has not been favourable for the Province

Area sown —The total area under the cultivation of *bhadoi* crops for the present year is estimated at 9,026,000 acres against 9,251,000 acres last year The estimate of the total normal area is 9,452,000 acres

Outturn —From the Appendix, it will be seen that Sambalpur and Singhbhum report 108 and 100 per cent crops Four districts estimate 91 to 97 per cent crops, 3 districts 80 to 87 per cent and 13 districts 70 to 79 per cent crops The outturn in Howrah and Champaran is estimated at 68 and 62 per cent, while Monghyr anticipates a 54 per cent crop In Murshidabad and Saran 49 per cent crops are expected in Nadia and Purnea 45 per cent crops, in Muzaffarpur a 43 per cent crop, in Bhagalpur a 41 per cent crop, in Darbhanga a 40 per cent. crop and in Patna a 38 per cent crop

Comparing the reports issued in the preliminary forecast with those now received, it appears that the outturn has improved in 9 districts, and has deteriorated in 10 districts

The total outturn of all *bhadoi* crops in the Province is estimated at 65 per cent of the normal against 68 per cent estimated in the preliminary forecast Last year's outturn was 72 per cent The outturn of autumn rice from District returns works out to 68 per cent of the normal Accepting this figure, the total yield of cleaned autumn rice amounts to 21,914,100 cwts. against 23,455,500 cwts estimated for last year.

August to October	The figures in Column 3 have been revised The increase in the area sown with autumn rice and other *bhadoi* cerals is due to the fact that on account of the falling off in the cultivation of jute, the area under autumn rice increased in the Basirhat Subdivision Deficient rain in the beginning and in the latter part of the season and heavy rain in the middle of the season in all the Subdivisions of the district and the appearance of insect pests which caused great damage to crops account for the lower outturn The general condition of the crops has been fair The date of harvesting was late in the Sadar and Basirhat Subdivisions and normal in the Barasat Barrackpore and Diamond Harbour Subdivisions.

Deficient rain has materially affected the outturn as well as reduced the area sown with autumn rice. It is the cessation of rain after the submission of the first forecast that accounts for the decreased outturn of autumn rice *marua* and Indian corn. The *hathya* rains have, however increased the outturn of the other *bhadoi* cereals and pulses. The date of harvesting was normal for half the crops and late for the other half

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1908

The following note is published for general information

F W DUKE,
Offg Chief Secy to the Govt of Bengal

The 24th December 1908

DEPARTMENT OF AGRICULTURE, BENGAL

FINAL FORECAST OF THE INDIGO CROP OF BENGAL, 1908

(On an average of the five years ending 1906 07 the area under indigo in the territory which the forecast relates has represented some 56 7 per cent of the total area under indigo British India.)

Character of the Season — Indigo is chiefly cultivated in the districts of Champaran, Muzaffarpur and Darbhanga and the season in these three districts was a bad one, owing to want of moisture A smaller area was sown than in previous years and the growth of the crop was badly affected The percentage figures, have in the past been, calculated on the actual outturn of indigo, but as the Java variety yields a much higher rate per acre than the Sumatrana the percentage figures are unduly high

Area sown —The area sown this year as compared with the two preceding years is given below —

	Acres
1908	135,300
1907	146,800
1906	137,800

Character of the Crop —In North Bihar a better outturn has been obtained from the second cuttings and the outturn is higher in these districts than what was sown in the first forecast The Muzaffarpur crop is estimated at 102 per cent, Saran 75 per cent, Darbhanga 73 per cent, and Champaran 38 per cent In Monghyr 63 per cent is anticipated and in Bhagalpur and Purnea 50 per cent only The Provincial outturn of the crop in North Bihar, including Monghyr, amounts to 77 per cent of a normal crop and in Lower Bengal and the minor districts of Bihar to 52 per cent The average for the whole Province is estimated at 73 per cent of the normal

The total outturn of the crop for the Province from the district return received works out to 26,331 factory maunds

Messrs Moran and Co 's estimate of the crop which has been manufactured this year is 25,500 factory maunds for Bihar and Lower Bengal Last year's crop according to trade returns was 26,500 factory maunds
